ALEX ROSEN

DATE TAKEN JUNE 1952

This employee entered on duty 10-16-33 as a Special Agent in Grade CAF-8, \$2900 per annum. At the conclusion of his training period Mr. H. H. Clegg said he was intelligent, determined, he would make a good Agent, and he was rather resourceful.

During his service with the Bureau he had been on general assignment to the New York, Buffalo, New Orleans and Washington Field Offices. He served as a Supervisor in the Criminal Investigative Division, as ASAC and SAC in Cleveland, and as Inspector and as Assistant Director in the Investigative Division.

Early reports from various SAC's and Bureau Officials reflected that he used initiative, he accepted responsibility, he possessed ample self-confidence, he was forceful, and his judgment was mature for his years and service. His basic shortcoming was a lack of aggressiveness. His attitude toward the Bureau and his work was commendable, and he possessed better than average qualifications and possibilities as executive timber.

Later reports reflected that he was an exceedingly conscientious worker; and he voluntarily devoted long hours of overtime to the handling of his work. On one occasion a letter was directed to him informing him that his overtime was excessive and instructing him to reduce it. He had an excellent knowledge of the Bureau's policy and procedure, he was capable of directing the work of others and of making independent decisions without advice or consultation with other Bureau officials, and he was regarded as one of the outstanding younger men in the Bureau's service.

He advanced in Grade and Salary and on 2-16-42 he was designated Assistant Director in charge of the Investigative Division in Grade CAF-14, \$6500 per annum.

By letter dated 6-27-42 he was commended for the excellent manner in which he had supervised the general investigative work of the Bureau during the past year and for his follow-up on the various field offices to insure prompt action in all cases presenting statistical possibilities, which in no small manner contributed to the statistics for the fiscal year 1942 exceeding records of any previous years. On 10-16-43 he received his Ten-Year Service award Key. On 6-1-47 he was reallocated to Grade CAF-15, \$9975 per annum.

By letter dated 11-25-47 his attention was directed to the inaccurate press release which was issued concerning the suicide of Charles G. McLaughlin inasmuch as the suicide note which was received in his Division, was not immediately transcribed so that it would be available at the time the press release was prepared.

Memorandum dated 5-7-48 regarding the case of [redacted] Unknown Subjects - Theft From Interstate Shipment, reflected that the Director advised Mr. Rosen and Mr. E. A. Tamm that consideration of the failure on the part of 15 Agents of the New York Office to detect the hijacking of a truck containing valuable

freight being shipped in interstate commerce, despite elaborate plans previously made and approved by the Bureau for surveillance of the anticipated theft, left the Director no alternative but to conclude that this matter was improperly handled at the Seat of Government.

By letter dated 7-8-48 he was severely censured in connection with the mis-handling by the Investigative Division of the case involving Arthur Meier Schlesinger, Jr., an Economic Cooperation Administration applicant, in which the Director's instructions limiting the furnishing of information in the Bureau's files to that which was obtained as a result of investigative activity and from sources definitely known by the Bureau to be reliable were completely ignored.

By letter dated 7-14-48 the Director advised him that he had reviewed the information submitted concerning the name check forms utilized in connection with the European Recovery Program and the Director stated he was deeply concerned regarding the obvious lack of care manifested by employees under Rosen's supervision in carrying out their responsibilities.

By memorandum dated 12-10-48 the Director expressed displeasure at the dilatory manner in which 2 extortion cases, found during an examination made by the San Antonio Office of Kidnaping, Extortion and Bank Robbery cases, had been handled by his Division.

On 3-31-49 Mr. Tolson rated him EXCELLENT. A review of his file reflected that he had been rated consistently EXCELLENT on his annual efficiency reports since 1942.

By letter dated 10-6-49 he was commended for the splendid services he had rendered in connection with the Retraining Session of the FBI National Academy Associates. On 10-30-49 he received a BSI to \$10,500 in GS-15.

During an inspection of the Investigative Division in October and November, 1949, Inspector Harbo said he had been in charge of this Division since February, 1942, and since that time the responsibilities and personnel of the Division had been substantially increased. The findings of the inspection indicated generally that the work of the Division was well organized and closely supervised. The various functions of the Investigative Division were rated as follows:

PHYSICAL CONDITION AND MAINTENANCE
INVESTIGATIVE OPERATIONS
ADMINISTRATIVE OPERATIONS
PERSONNEL MATTERS

VERY GOOD
VERY GOOD
VERY GOOD
EXCELLENT

b6

Letter dated 2-24-50 reflected that the Director was not at all satisfied with the indicated lack of attention the handling of the [redacted] case received by his Division. A lack of alertness was noted on the part of a supervisor in his Division in the proper routing of a memorandum to other

supervisors within the Division when it obviously contained information which would be of interest to them.

In a memorandum from the Director to Mr. Tolson and Mr. Glavin dated 2-24-50, the Director noted among other things that he had spoken to Mr. A. Rosen and expressed to him the Director's complete displeasure of his administration of the Investigative Division and of his intention to transfer him as Assistant Director in Charge of that Division unless he could immediately take hold of that Division and bring about a more effective administration of it. Mr. Rosen assured the Director he believed he could do so and for the present he remains as Assistant Director of that Division.

On 3-3-50 he was considered for a Uniform Promotion but was passed over to be reconsidered at a later date.

On 3-9-50 the Director advised that he had reviewed the four memoranda which Mr. Rosen submitted on Special Agent Supervisors in his division in which he recommended that they be transferred to the field. None of the memoranda reflected any delinquencies or derelictions on the part of the Supervisors but seemed to be predicated upon purely psychological reasons. The Director did not feel that the Bureau could take action to transfer the four Supervisors on whom he submitted the memoranda at this time without some specific reasons being set forth. As a matter of fact, the memoranda state that the Supervisors have been performing their work in a satisfactory manner and they have been rated Excellent on the basis of their work in the past. To transfer these Supervisors now based on Rosen's memoranda would not be conducive to good morale and would be obviously poor personnel administration. Consequently it was impossible for the Director to take any action on the basis of the memoranda which Mr. Rosen had submitted. The Director wanted him to give the matter of analyzing and evaluating the Supervisors under his direction his most careful attention and the Director would expect that in the future he would promptly call to the Bureau's attention instances on the part of any Supervisor where he was not properly handling his assignments or functioning in the manner desired.

b6

By letter dated 3-10-50 he was CENSURED in that on 2-7-50 the Investigative Division received a memorandum from the Department concerning the [redacted] matter and it was noted that the reply to the Department was not actually transmitted until 3-3-50. It was further pointed out to him that regardless of the explanation submitted the fact remained that he had the responsibility of seeing to it that mail was handled by the Investigative Division promptly and efficiently and not in the manner in which the [redacted] matter was handled in this instance.

On 3-31-50 Mr. Ladd rated him VERY GOOD and said he was inclined at times to procrastinate. It was necessary for the Director to talk to him in an effort to get him to adopt a more aggressive attitude toward the handling of his section. Since the time of that talk, there had been a tremendous improvement in Mr. Rosen in this regard. There was no question about Mr. Rosen's capabilities. He was able to efficiently and effectively operate as Assistant Director and to handle the work in his Division, if he will continue to maintain the push and enthusiasm which he was now showing. Mr. Ladd believed he would continue as aggressively as he had indicated he was doing at this time.

b6

By letter dated 4-4-50 there were enclosed for Mr. Rosen copies of letters which it had been necessary to direct to Supervisors [redacted] and [redacted] both of his Division, because of the submission and approval of a recent memorandum pertaining to a request by an official of the Illinois Bankers Association for permission to reproduce and distribute a Bureau poster relating to the Federal Bank Robbery Statute. It was pointed out to him that this memorandum contained erroneous information accompanied by unsound recommendations and was definitely unsatisfactory. It was further pointed out to him that it was his responsibility as Assistant Director in Charge of the Investigative Division to see to it that such matters were handled properly.

By memorandum dated 6-12-50 his attention was called to his delay in the submission of several annual efficiency reports which were received in the Administrative Division on 6-6-50. It was pointed out to him that the SAC Letter to all Bureau Officials dated 2-6-50, regarding the submission of the 3-31-50 annual efficiency reports specifically instructed that these reports be submitted to reach the Administrative Division not later than 4-15-50.

On 7-23-50 he received a Uniform Promotion to \$10,750 per annum in GS-15.

In a memorandum from the Director dated 9-15-50, he (the Director) stated he had previously had occasion to call attention to the lack of initiative and aggressiveness in the handling of matters in the Security and Investigative Divisions and the Director regretted the necessity to again have to comment upon this same situation. Among other things the Director called Mr. Rosen's attention to his failure to recommend letters of commendation for the handling in his Division of an investigation into the interstate transportation of lottery tickets. The Director advised he had repeatedly indicated that it should not be necessary for either Mr. Tolson or himself to have to spell out, like a - b - c, what should be done but that it was the responsibility of the Assistant Directors, and the Director believed it was reasonable for him to expect that they would upon their own initiative seek out any defects in the handling of our responsibilities and to take prompt and immediate steps to correct them. This was not being done.

His daily average overtime for October, 1950 was 3 hours 42 minutes; November, 3 hours 17 minutes; and December, 3 hours 14 minutes.

By letter dated 1-16-51 he was advised that the self-inspection report of the Investigative Division had been reviewed. It was noted that numerous changes were made in assignments to supervisory personnel to insure a more equitable distribution of the work. This was a matter which should receive his continued attention to insure that appropriate allocation of supervisors was made whenever changes were warranted.

On 3-31-51 Mr. Ladd rated him SATISFACTORY and said he was in charge of all criminal, applicant, and accounting work for the Bureau and as such he had a thorough knowledge of Bureau policy. He was a good executive and administrator and was thoroughly familiar with all the activities in his Division. He directed the work of the Supervisors under him in a very satisfactory manner. He was possessed of good judgment, native ability and had an analytical mind. He had vision and made long-range plans for the handling of the work of his section.

By letter dated 8-1-51 he was CENSURED and PLACED ON PROBATION inasmuch as a recent survey made of the handling of Departmental Applicant cases by the Investigative Division disclosed that substantive delinquencies were found in eight of these investigations. One case involving Chuck Mau, under consideration for appointment to the First Circuit Court in the Territory of Hawaii, revealed a number of glaring deficiencies which his division had failed to detect. It was intolerable that he and other responsible Bureau officials had not been sufficiently alert to locate and prevent shortcomings such as those reflected in the Departmental Applicant investigations. The Director had repeatedly found it necessary to have Assistant Director Clegg or some other Bureau official check into the supervision of investigative matters in his division in order to find out what was wrong.

b6

By letter dated 8-3-51 he was CENSURED inasmuch as in a review of the case entitled [redacted] Departmental Applicant, Clerk-Stenographer, Lands Division," the Training and Inspection Division noted that the language employed in a report to describe an interview concerning the applicant was inept and left an unsettled presumption that the person interviewed might be withholding information that was pertinent to the investigation. This error was clearly pointed out; however, the answer submitted by the Investigative Division to the question raised was argumentative and evaded the issue at hand in an apparent attempt to defend a bad position, rather than face the problem. It was indicated that the unsettled presumption appeared to be dispelled since the reporting Agent did not state that the interviewee appeared to be withholding information, and another of her comments did not appear to be critical. This position was not realistic and in the absence of a suitable explana-

By letter dated 8-10-51 he was CENSURED inasmuch as the results of the recent survey of Bank Robbery cases have been reviewed and on the basis of the facts reported, it was found that the personnel handling these matters under his supervision have been lax and careless in some instances. The Director would not condone delinquencies of this type and it would be necessary for him to take immediate steps to insure that close and vigorous supervision was afforded to cases in this classification.

By letter dated 8-17-51 he was CENSURED for arranging to have a special conference of all clerical employees of his division on 8-7-51 but did not personally handle this conference. Obviously a matter of such tremendous importance to his division and to the Bureau as a whole should not have been delegated to a Special Agent Supervisor in his division and it would seem that he would have taken the initiative to appear before this conference and handle it himself. It did not appear that any of the ranking officials in his division attended this conference and most certainly they should have attended in order to be aware of the matters that he was calling to the attention of the various clerical employees. The Director wanted him to definitely understand he would not tolerate a repetition of such an indifferent attitude to his responsibilities as Assistant Director of the Investigative Division and hereafter the Director wanted him to personally appear before all general conferences of employees of his division and to personally take charge of the conference.

By letter dated 8-30-51 he was ORDERED UNDER TRANSFER to the Baltimore Office as Special Agent in Charge in Grade GS-14, \$9800 per annum. This change was made for official reasons and not primarily for his convenience or benefit, or at his request.

The Director saw Mr. Rosen on 9-4-51. Mr. Rosen stated that he regretted sincerely the necessity of issuing the orders of transfer for him but that he was going wherever his services would be needed and intended to regain the Director's confidence in him. His attitude was exceptionally fine, so much so that the Director decided to countermand the orders of transfer to Baltimore, at least for the time being. The Director told Mr. Rosen that very frankly he had been disappointed in his administration of the Investigative Division and that as he recalled, the Director had warned him about the conditions in that Division on numerous occasions. The Director told him that he did not at any time question his industry or his sincerity but that he did lack initiative, planning ability, and aggressiveness. It was believed that much of his difficulty was due to his inclination to be too philosophic and to "roll with the punches." The Director pointed out to him numerous difficulties and problems which had arisen in his Division which should have been handled by him or at least anticipated by him. The Director outlined the tremendous increase in responsibilities, and that key men of the Bureau here at Washington had to produce and deliver, irrespective of the Director's personal

feelings about the matter. Mr. Rosen was told that it was not a pleasant thing to have to relieve an official of his position but that obviously the Director had to give attention to the best interests of the Bureau first. Mr. Rosen had indicated a very strong desire to meet the Director's expectations in these matters and the Director believed he would honestly try. At least we would give him another trial.

By letter dated 9-4-51 he was advised that his transfer to the Baltimore Office was being CANCELLED and he was to remain in his present assignment as Assistant Director in charge of the Investigative Division in Grade GS-15, \$10,750 per annum.

By letter dated 9-25-51 he was COMMEDED for the excellent manner in which the case involving Kenneth Allen Kitts, a badly wanted I. O. Fugitive in a Bank Robbery case, was handled.

By letter dated 10-9-51 he was COMMEDED for the splendid manner in which the recent survey of the meat situation was handled.

By letter dated 10-13-51 he was advised that he was being REMOVED FROM PROBATION.

By letter dated 10-15-51 he was COMMEDED for the excellent manner in which he directed and supervised the roundup of a large number of subjects of a series of Theft of Government Property cases.

On 10-22-51 he was reallocated to Grade GS-17, \$12,200 per annum.

By letter dated 1-24-52 he was COMMEDED and through him to the supervisors of the General Investigative Intelligence Desk, for the exemplary work performed relative to the recent roundup of Interstate Transportation of Gambling Devices cases in the Louisville Division. b6

Memorandum dated 3-11-52 reflected that with respect to the [redacted] Bribery and [redacted] Bribery matters, the Director had carefully reviewed all the facts contributing to the delay in the investigation of these cases and it appeared that there was an unnecessary delay in his division in personally contacting the Special Agent in Charge of the Washington Field Office in order that this matter could be assured of expeditious attention. It appeared that due to the importance of these cases, he would have personally followed their investigation in order that they could be brought to completion at the earliest possible time and further, he should have realized the necessity of contacting the Special Agent in Charge or the Assistant Special Agent in Charge of the Washington Field Office when it was realized in the early stages of this investigation that there was a delay in its completion.

On 3-31-52 Mr. Rosen called to see the Director. Mr. Rosen had been absent from the Bureau since February 7 on sick leave and informed the Director that his doctor had indicated that he must take another four weeks before he could return to duty. Mr. Rosen stated that he had come down from the hospital to see the Director in order to advise him of this situation and of the fact that his doctor felt that when he did return he should not assume the same burdens which he had in the past and which the doctor believed had led to his present illness. Mr. Rosen stated that he was organically sound but would have to guard against acquiring any extreme fatigue in the future. Mr. Rosen felt, therefore, that he should not be continued in his present position in the Bureau as Assistant Director in Charge of the Investigative Division in view of the fact that he would be unable to put the same drive into the work which he felt was necessary and which he stated he had given to it in the past. The Director told Mr. Rosen that he appreciated his attitude in this matter and that, of course, he (the Director) wanted to do whatever he desired to have done so that his health would not be impaired. He stated he felt he could still carry some responsibility and wanted to make the Bureau his life's work. He asked that a decision as to any new assignment be held in abeyance until he had returned from the four weeks leave which he was now going upon on the advice of his doctor.

On 3-31-52 Mr. Ladd rated him SATISFACTORY and said he presented a good appearance, had a thorough knowledge of Bureau procedure and policy. He had shown that he was possessed of good judgment and during the rating period planned the work of the Investigative Division in a satisfactory manner. He was able to direct the activity of the Agents assigned to his section and was well-liked by the employees in his section.

He had no overtime for the month of March, 1952 having been on sick leave for the entire month.

On 4-29-52 the Director advised that Mr. Rosen returned on the morning of 4-29-52 from sick leave, having been absent from the office since the first part of February. Mr. Rosen stated that he had checked with his doctor and had received the report that he was physically sound. He was desirous, if possible, of resuming his duties as Assistant Director, contingent, of course, upon whether he would be able to adequately perform those duties. The Director told him he was entirely agreeable to reassigning him to this work but that if he found it was in any way impairing his health, he should promptly advise him (the Director) so that he might assign him to other duties in the Bureau.

On 7-8-52 the Director advised Mr. Rosen of the inadequate manner in which the Bureau's criminal informant program had been handled, not only in the field, but also here at the Seat of Government. Recently, ASAC Van Pelt of Knoxville conducted a survey of the Philadelphia Division,

which disclosed that during the past six months the informant coverage of that office had actually decreased in spite of the fact that specific and detailed instructions for its improvement were issued to that division in December, 1951, during the course of the last regular inspection by Inspector Naughten. In connection with the assignment of ASAC Van Pelt to handle this survey at Philadelphia, his division failed to instruct him to review the findings of Inspector Naughten so that he could determine whether the Philadelphia Division was following through on Mr. Naughten's recommendations. In addition, his division did not advise the Training and Inspection Division in advance that ASAC Van Pelt was to be used in this capacity. The above indicated a grossly negligent approach to the whole informant program on Rosen's part.

By letter dated 7-14-52 he was CENSURED for his failure to provide additional supervisory attention to the Criminal Informant Desk from 12-28-51, until 2-4-52. In view of the importance of our informant program, it seemed incongruous that he waited until 2-4-52, to assign an additional Special Agent to the Criminal Informant Desk when there were a number of Special Agents received for assignment in his division during the month of January.

During an Inspection of the Criminal Informant Desk in the General Investigative Division in July, 1952, Inspector Naughten rated the various functions as follows:

PHYSICAL MATTERS.....GOOD
ADMINISTRATIVE OPERATIONS.....FAIR
SUPERVISION OF INFORMANT DEVELOPMENT.....GOOD

In a Letter to Mr. Rosen dated 7-31-52, the above inspection was outlined to him. He was advised among other things that the Director was authorizing one additional clerk for assignment to the Criminal Informant Desk and this transfer would be executed as soon as he submitted to Mr. Glavin a job description sheet. There were a discouraging number of delinquencies in criminal informant matters. Under no circumstances were any more unauthorized administrative practices to be put into effect in the handling of informant matters. He should see to it that the criminal informant desk complied with all Bureau requirements.

His daily average overtime for August, 1952 was 3 hours 32 minutes.

During an Inspection of the Investigative Division in September, 1952, Inspector B. C. Brown said Mr. Rosen had frequent personal contact with supervisory Agents in his Division, was readily available for consultation with them on any matter of importance, moved frequently throughout his Division observing operations, and was in touch generally with all phases of the work in the Investigative Division. He worked hard and long, as reflected by his overtime for the months of May, June, and July, 1952, which averaged four hours fourteen minutes. The Inspector believed that he worked to the limit of his physical endurance, possibly beyond it at

times. He was considered competent in his position. The various functions of the office were rated as follows:

PHYSICAL CONDITION AND MAINTENANCE.....VERY GOOD
INVESTIGATIVE OPERATIONS.....VERY GOOD
ADMINISTRATIVE OPERATIONS.....GOOD
PERSONNEL MATTERS.....VERY GOOD

As the result of the above inspection, a letter was directed to Mr. Rosen dated 9-18-52 advising him among other things that clerical employees should be removed from the corridors as rapidly as office space becomes available. Security measures throughout his Division must be checked at frequent intervals to eliminate any possible hazards. The low amount of pending work on hand for each typist during the inspection indicated that further reductions in personnel could be effected. The reductions in both Agent and Clerical personnel in the Special Inquiry Section already effected were encouraging. It was imperative that all supervisory personnel in his Division keep uppermost in their minds the necessity for on-the-scene supervision of major cases by the SAC, ASAC, or other Bureau official. Closer attention must be afforded all administrative procedures to reduce operating costs. The unauthorized retention of ticklers beyond 60 days in his Division was inexcusable. The increase in criminal statistics reflected for fiscal year 1952 over 1951 was encouraging.

By letter dated 9-11-52 he was CENSURED and PLACED ON PROBATION inasmuch as the Director had reviewed the information which he had furnished with respect to the failure to promptly inform the Director that prisoners had escaped from the Federal Penitentiary at Lewisburg, and that this Bureau had initiated investigation to locate the escapees at the request of the prison authorities and there appeared to be absolutely no justification for the delay which occurred. The Director was also misinformed with respect to the question of whether the prison authorities had notified the Philadelphia Division of the escape within one hour in accordance with the requirement previously established in such cases and it was necessary for the Director to make personal inquiry in order to ascertain that this condition had in fact not been met.

By letter dated 9-15-52 he was CENSURED for the unsatisfactory manner in which his division handled an important teletype concerning the three Lewisburg escapees. The fact that he permitted this teletype to remain in his division for more than an hour before recognizing its importance was an inexcusable administrative omission. The Director had told him repeatedly that we must exert every possible effort to discharge our responsibilities with efficiency and dispatch, and the Director expected him to take the necessary action to insure the prompt handling of all matters in his division.

By letter dated 9-19-52 the Director advised Mr. James V. Bennett, Director, Bureau of Prisons, U. S. Department of Justice, Washington, D.C., that he had designated Mr. Al Rosen, Assistant Director in charge of the Investigative Division of this Bureau, to confer with a representative of Mr. Bennett's office in working out a program that would bring about closer coordination and cooperation in connection with matters in which the FBI had investigative jurisdiction.. The Director had asked Mr. Rosen to contact Mr. Bennett's office and make himself available for conference with his representative at a time mutually agreeable to both.

By letter dated 10-27-52 he was CENSURED for the unwarranted delay in his division in summarizing certain information received in the Bureau from the Salt Lake City Office regarding the activities of the Lieutenant Governor of the State of Nevada. It should have been evident that a matter of this nature should receive prompt and preferred attention, and this was not done.

By letter dated 11-14-52 he was CENSURED inasmuch as a review of his memoranda of 11-4 and 11-10-52, concerning the inadequate criminal informant coverage in the Honolulu Division disclosed his failure to forcefully pursue the informant program there, as well as in other field divisions. It seemed incongruous that he would have permitted the informant program in Honolulu to drag along over an extended period of time without taking affirmative action to secure explanations from that Division for their failure to develop informants. And more particularly, it was incongruous that he failed to notify the Director of this unsatisfactory situation, thus precluding the Director from taking any affirmative action to see that the program was adequately handled.

By letter dated 11-25-52 he was CENSURED inasmuch as during the past year three separate instructions were issued to the field concerning the handling of Bribery investigations by another government agency resulting from the passage of Public Law number 79, Eighty-Second Congress. However, officials and supervisors in his Division who were handling this matter or under whose supervision it was being handled failed to see that appropriate manual revisions were issued at the time.

By letter dated 11-25-52 he was CENSURED for the lack of aggressive supervision afforded the handling of the bribery investigations involving two officials of the Office of the United States Attorney for the Southern District of New York. Their importance should have been readily apparent, and he should have seen to it that his subordinates gave these cases whatever attention was required to bring about their completion at the earliest time possible. This he failed to do. b6

By letter dated 11-28-52 he was CENSURED for the lax manner in which the bribery investigation involving [redacted] was handled in his division. This important case was allowed to drag along over a four-month period and unnecessary delays by the field were allowed to go unexplained.

By letter dated 1-6-53 he was CENSURED for the manner in which he and other Bureau officials had failed to initiate a program whereby the Bureau would be aware of criminal activities on the New York waterfront in which the Bureau had an interest and which in many cases probably constituted violations of federal laws over which the Bureau had jurisdiction. The lack of a positive program with strong supervision on his part at the Seat of Government was one of the factors responsible for the Bureau's failure to meet its responsibilities in this instance. It was obvious that very little if any foresight and planning was exercised by him in connection with this matter.

By letter dated 1-15-53 he was CENSURED inasmuch as an incorrect statement appeared in a memorandum dated 12-15-52, prepared by his division and addressed to the Attorney General, which furnished information concerning Myles J. Lane, United States Attorney for the Southern District of New York. The Bureau stated in its memorandum that the Deputy Attorney General had advised that no further inquiry was desired concerning the relationship between Mr. Lane and one Thomas Luchese when in fact no such instructions had been issued. It was noted further that in a previous memorandum to the Department dated 9-4-52, concerning this matter, the Bureau improperly drew a conclusion or made an observation concerning an apparent inconsistency in information furnished by a complainant, whereas it was the function of the Department rather than of the Bureau to note such inconsistency.

b6

By letter dated 1-23-53 he was CENSURED for the way in which correspondence from Professor [redacted] of Pittsburgh University was handled. It was noted that Professor [redacted] wrote a letter to the Bureau under date of 12-18-52, and this communication was received in his division on 12-23-52. A reply was dictated on 12-24, and it was typed on 12-29. It was then necessary to revise this communication and retype it on 12-30. His division was unaware that there was earlier correspondence being placed on record in the Records Section and which was not on record on 12-23, when [redacted] communication was received.

b6

By letter dated 2-3-53 he was CENSURED with respect to the handling of the allegation that a former supervisor in his division authorized an attorney of the Department of Justice to furnish portions of an investigative report in the case of [redacted] et al, Fraud Against the Government, to an unauthorized individual. The Director was greatly displeased with the manner in which this matter had been handled by him and his subordinates. In the first place, when it was first learned that an attorney was relying upon an entry in his diary as a basis for this allegation no effort was made at that time by the official of his division interviewing the attorney to secure the entire, exact wording of

the diary entry. Another serious shortcoming was the failure to immediately recontact the former supervisor who was accused of having authorized this action in order to secure his comments and explanation.

By letter dated 2-12-53 he was CENSURED for the manner in which a memorandum addressed to the Attorney General was prepared in his division. This memorandum purported to set forth the various allegations received by the Bureau concerning possible violations of the election laws in New Mexico in connection with the November, 1952 elections. However, information with respect to a complaint received regarding the activities of a certain labor organization in allegedly making contributions to the election campaign in New Mexico was not included in the memorandum in question. This omission was extremely embarrassing since the Attorney General specifically inquired about this particular allegation. In connection with this same matter, it had been observed that an official of his division characterized the memorandum submitted in this instance as a "good" memorandum when it was not complete and resulted in embarrassment to the Bureau.

b6

By letter dated 2-13-53 he was CENSURED for the handling in his Division of the Civil Rights cases involving [redacted]. From a review of this information it was obvious to the Director that the Investigative Division was not on its toes in following these cases and failed to see to it that they were closely and properly supervised at the Seat of Government. Appropriate action was not taken with respect to delays on the part of the Savannah Office in reporting the results of investigation conducted, and there was an unreasonable delay in his Division in calling the attention of the Department to the manner in which prosecutive action against this subject had been allowed to drag by the Civil Rights Unit of the Department and the U. S. Attorney at Charleston, South Carolina.

b6

By letter dated 2-24-53 he was CENSURED inasmuch as the recent inspection of the New York Office revealed a serious delinquency in reporting the results of investigation in the Interstate Transportation of Stolen Property; Conspiracy case involving [redacted] and others. It was noted that this case was opened in the New York Office on 10-10-51, and that no investigative report had been submitted by the New York Office at the time of the inspection in November, 1952, although eleven individuals were carried as subjects in the case and four subjects had been apprehended by Bureau Agents. Such an unreasonable delay in reporting was inexcusable and would not have occurred if this case had been afforded the proper supervision at the Seat of Government.

b6

A letter of CENSURE was directed to him on 3-12-53 in view of a survey recently made of a number of civil rights cases which had arisen within the New York Division, and in connection with the case relating to Detective [redacted] of the New York City Police Department there was

an unwarranted delay on the part of the New York Office in completing and reporting its investigation. The Bureau was notified of the existence of this case by New York letter of 8-21-52, which indicated that the U. S. Attorney had requested the investigation on 8-8-52. Despite the nature of this matter and the fact that it had already been in the hands of the New York Division for some time before the Bureau was advised, there was a further and extreme delay and it was not until after the submission of a second investigative report on 10-12-52, that his division placed a deadline on the case.

On 3-31-53 Mr. Tolson rated him SATISFACTORY.

By letter dated 4-9-53 he was advised that he was being REMOVED FROM PROBATION.

On 4-26-53 he received a Uniform Promotion to \$13,200 per annum in GS-17.

His daily average overtime for April, 1953 was 4 hours 47 minutes.

During an Inspection of the Investigative Division in April - May, 1953, Inspector Mason stated that Mr. Rosen and his staff appeared to be competent in their posts, conscientious, and working hard. The various functions of the office were rated as follows:

PHYSICAL CONDITION AND MAINTENANCE.....VERY GOOD
INVESTIGATIVE OPERATIONS.....VERY GOOD
ADMINISTRATIVE OPERATIONS.....GOOD
PERSONNEL MATTERS.....VERY GOOD

Upon completion of the inspection a letter was directed to him on 6-11-53 in which several matters were called to his attention. A review of 971 cases supervised by his division uncovered six substantive errors and fifty-five errors of form. Most of the errors of form were made elsewhere at the Seat of Government. It was known that he had been giving close attention to the work of the Special Inquiry Section and that definite efforts had been made to reduce the length of time it took to completely handle various categories of applicant-type investigations. It appeared that the number of cases received by the Special Inquiry Unit of the Special Inquiry Section had now passed the peak. He was aware of the Inspector's findings that out of one hundred and seven files reviewed during the inspection relating to various applicant investigations, 56 of the matters required from 31 to 39 days for complete handling and 40 of the matters required up to 49 days for handling and 11 cases required more than 50 days' handling time. It appeared that his stenographic problem had been largely solved. He should seek to increase the utilization of Dictaphone equipment in his division. He should make arrangements for the Crime Records Section to maintain form 6-13 concerning those

fugitives on whom information had been furnished to the press or radio. During the course of the inspection, he requested that a study be made of his proposal that the Criminal Section be reorganized into smaller units for the purpose of effecting tighter control, enhancing coordination of the various desks, facilitating the training of new supervisors, and to a greater degree fixing responsibility. The Bureau agreed with the desirability of accomplishing these purposes and concurred with his proposal for the establishment of five units within the Criminal Section with the specific understanding that the unit heads would not be relieved of any supervisory responsibilities, they would continue to supervise cases as in the past, no additional personnel would be requested now or at any time in the future for the purpose of effecting this rearrangement and it was also the Bureau's understanding that this reorganization would be in line with that now in existence in certain other divisions at the Seat of Government and would not result in the creation of any additional executive-type positions.

It was further noted that the percentage of tardiness in the Investigative Division was very favorable at .0054 per cent. Voluntary overtime averaged better than two hours per day per agent throughout his division and appeared to be equitably apportioned. On the other hand, his overtime was much too high and the Director believed that five hours per day overtime was excessive on his part and he should make definite efforts to substantially reduce it. In synopsis, it appeared that morale was quite high in the Investigative Division and, generally speaking, the employees of his division were working together as a team and were conscientious in the discharge of their responsibilities.

By letter dated 10-16-53 he was awarded the Twenty-Year Service Award Key.

By letter dated 10-16-53 he was CENSURED for the failure of the Investigative Division to properly handle the various ramifications of the kidnaping case of Robert C. Greenlease, Jr. He approved a memorandum submitted by a Special Agent Supervisor assigned to his division which contained misleading information in the details and which memorandum largely contributed to the errors made in a press release issued in connection with this case. The Director also expressed his displeasure at the unwarranted delay which occurred in his division in bringing to the Director's attention the fact that the fingerprints of one of the subjects arrested at St. Louis, Missouri, in this matter, were not identical with the fingerprints of another individual with a similar name who had a criminal record which had previously been released by the Bureau as pertaining to the individual in custody in St. Louis.

By letter dated 10-23-53 he was COMMENDED for the diligent efforts of the Investigative Division personnel in performing their duties in connection with the handling of the Greenlease Kidnaping case.

In a memorandum to Messrs. Tolson, Ladd, and Rosen dated 10-29-53, the Director stated that during the evening hours of 10-27-53, a spot check was made as to the handling of mail in various offices at the Seat of Government. During the course of this check it was found that the Investigative Division had on hand two investigative reports which had been received by that division more than five days earlier and one letter which had been on hand for more than two work days. It was desired that Mr. Rosen take appropriate steps to make certain that all reports, letters and memoranda were promptly processed and returned to file in the future.

By letter dated 11-17-53 he was COMMEDED for his splendid contributions to the special kidnaping school held from 10-26 to 11-6.

On 12-29-53 he was CENSURED in view of the circumstances relating to the recovery of two twenty-dollar bills which were at first believed to be a part of the unrecovered Greenlease ransom money although it was later determined that the recovered bills were of different series from those having identical numbers in the ransom money. Due to the failure to immediately recognize the possibility that the two bills might not be part of the ransom money, considerable unnecessary investigation was conducted. From a review of all of the facts it was apparent that the Investigative Division should have anticipated any problems that might arise in connection with the ransom money list which was disseminated in this case.

By letter dated 2-24-54 he was CENSURED for the inadequacies and weaknesses on the part of the Houston Division as well as the Investigative Division in the handling of the Fraud against the Government case involving Brown and Root. In both places there was an absence of proper aggressiveness in supervising a case of this importance, anticipating the Bureau's needs in properly fulfilling its responsibilities and seeing to it that the investigation was carried forward to a logical conclusion without delay and that any obstacles to such an end were removed.

By letter dated 3-4-54 he was CENSURED for the dilatory manner in which the recent request of the Oklahoma City Division for approval of certain correspondence to a United States district judge at Tulsa, Oklahoma, was handled by the Investigative Division. Although the request of the Oklahoma City Division was received in his office on 2-15-54, the memorandum was not completed until 2-19-54.

By letter dated 3-19-54 he was advised among other things, that in Inspector Nugent's completed survey of the Accounting and Fraud Section of the Investigative Division, he (Mr. Nugent) believed that the supervisors should concentrate on providing the field with more constructive observations so as to enhance accounting and investigative performance. The Bureau agreed that the index as to the ability of accountants now kept by the Administrative Division should be transferred to his Division. He should arrange to meet with the supervisors of the Accounting and

Fraud Section and impress upon them the Bureau's wishes that investigative matters and particularly those involving accounting be given close and vigorous supervision and that all weaknesses detected should be followed by prompt and decisive action. The Investigative Division should be alert to initiate recommendations for strengthening procedures and establishing more effective controls as a means of improving work performance.

b6

By letter dated 4-12-54 he was CENSURED for the inefficient handling of a phase of the Fraud Against the Government investigation of [redacted], and others, in the Investigative Division and it was apparent that this matter was not properly analyzed by him and his subordinates. He was seriously at fault in approving a recommendation to send a Special Agent Accountant to San Juan on a special assignment when he was not in possession of all the facts relative to the qualifications of a Special Agent Accountant who was already assigned to that office.

In a letter to Mr. Rosen dated 5-12-54, the Director expressed appreciation for his thoughtfulness in extending congratulations to the Director, through Miss Gandy, upon his Thirtieth Anniversary as Director of the FBI.

By letter dated 5-13-54 he was CENSURED for permitting a procedure to exist in the Investigative Division which had required unnecessary retyping of correspondence to the Attorney General. He had required that memoranda to the Attorney General be completely free from erasures, even though these erasures had been expertly performed. It had also been noted that on 5-5-54, in a conference with Section Chiefs of his division it was announced that outgoing correspondence should not contain the personal pronoun "I" except in unusual circumstances. This rule does not appear in any Bureau manual and appeared to have been devised within his division. The Director could not express too strongly his displeasure for his establishment of procedures which were at a variance with those of the remainder of the Seat of Government.

By letter dated 6-22-54 he was CENSURED and PLACED ON PROBATION in view of the results of a survey conducted by the Training and Inspection Division into the handling of the case entitled "Uintah and White River Bands of Ute Indians vs. United States, Court of Claims Number 45751, Court of Claims," by the Accounting and Fraud Section of the Investigative Division. This case was the sixth in the past six months involving lax supervision in the administration of the Accounting and Fraud Section and it was apparent that he had not taken effective action to insure the proper functioning of the section.

By letter dated 6-22-54 he was CENSURED because the Training and Inspection Division detected three Supervisors in the Accounting and

Fraud Section who did not have promise for advancement and he was charged with lax administration of the Investigative Division for failing to detect this himself.

He attended a Kidnapping Course at the Seat of Government on 7-1-54.

b6

By letter dated 7-14-54 he was CENSURED and CONTINUED ON PROBATION in view of the recently completed inquiry by two Bureau officials into the handling of the investigation of the kidnaping of [REDACTED] at Phoenix, Arizona. This investigation disclosed certain glaring deficiencies on the part of personnel of this Bureau and as Assistant Director in charge of the Investigative Division he was responsible for the proper supervision and adequate instructions to the field in this case and must share in large measure the blame for the inexcusable weaknesses which occurred.

By letter dated 7-30-54 he was CENSURED for the inadequacy of the summary memorandum which was prepared in his division on 7-27-54, regarding the Crime on a Government Reservation case involving [REDACTED] an eleven-year-old juvenile who had broken into six homes and stolen approximately thirty-five dollars. The memorandum in question completely failed to take into account the responsibility of the Baltimore field supervisor and, accordingly, made no recommendation for administrative action in his case. Thus, it was necessary to secure additional information and revise the memorandum to cover this point.

b6

By letter dated 7-30-54 he was CENSURED inasmuch as it was displeasing to note that his Division did not exercise sufficient curiosity when reading the initial investigative report of 10-4-51, in the case entitled [REDACTED] Interstate Transportation of Stolen Property. If a greater interest had been taken in this matter, it would have been noted that there was a delay of approximately a year between the time the checks were passed and the date of the report. The supervisory employee at the Seat of Government should have scanned the details and it would then have been evident that the case had not been properly handled.

b6

By letter dated 8-11-54 he was CENSURED for the improper supervision afforded by the Investigative Division to the case entitled "Unknown Subject; Custer County State Bank, Arapaho, Oklahoma, FDIC 8981, 10-10-53, Bank Robbery - Burglary." It was realized that the Greenlease kidnaping case created extraordinary demands on manpower during the period when the above-entitled bank burglary occurred and during the early stages of its investigation. It was not believed that the occurrence of a major case, such as the Greenlease case, should be considered as an excuse for failure to properly supervise other criminal violations which were under investigation at the same time. He should have been alert to the unusual demands

made by the Greenlease case on the time of supervisors assigned to the Bank Robbery - Kidnaping desk. It was his responsibility to arrange for assignment of adequate personnel in order that these important matters would not be neglected.

By letter dated 9-3-54 he was COMMEDED and through him to the personnel of the Criminal Section, for the splendid accomplishments of that Section during the past fiscal year. The substantial increases in the accomplishments of the Civil Rights Unit, Interstate Crimes Unit, General Crimes Unit, General Fugitive Unit and Deserter Fugitive Unit were indicative of the close supervision afforded matters in these Units and certainly reflected that the supervisory personnel were aware of the Bureau's important responsibilities in these fields.

By letter dated 9-9-54 APPRECIATION was expressed to him and through him to the employees of the Investigative Division on the fact that his Division well exceeded the 100 percent mark as early as September 3 in its pledges to the FBI Employees' Consolidated Charity Fund Drive.

During an Inspection of the Investigative Division in August and September, 1954, Inspectors Brown and Nugent rated the various functions of the division as follows:

PHYSICAL CONDITION AND MAINTENANCE.....	VERY GOOD
INVESTIGATIVE OPERATIONS.....	VERY GOOD
ADMINISTRATIVE OPERATIONS.....	VERY GOOD
PERSONNEL MATTERS.....	VERY GOOD

By letter dated 9-27-54 he was advised that inasmuch as the findings of the inspection indicated a general tightening up in the supervision in his division, he was BEING REMOVED FROM PROBATION. His attention was directed to the fact that a review of 427 pending cases in the Criminal Section resulted in the preparation of three case writeups, only two of which involved dereliction on the part of supervisors assigned to the Criminal Section. Although this was a relatively low number of substantive errors, his objective must be to completely eliminate such errors. The situation involving the handling of applicant cases continued to present problems requiring his close attention. He and his associates in the Employees Security Section were to be commended for the progress which had been made in decreasing by two days the working time used in the section in processing these matters before sending them to the field for investigation.

By letter dated 10-16-54 the Director CONGRATULATED him on his twenty-first anniversary as a member of the Bureau family.

On 10-24-54 he received a Uniform Promotion to \$13,400 per annum in GS-17. b6

By letter dated 11-2-54 he was CENSURED for the inadequate handling in his division of a memorandum prepared under date of 5-12-54 to the Attorney General in the case entitled [REDACTED] - Fraud Against The Government; Bribery; Conspiracy. This memorandum should have contained a specific indication that the police records mentioned could not be definitely identified by the Bureau as applying to the subject in this case. b6

By letter dated 11-8-54 he was CENSURED for the handling in his division of the Selective Service Act, 1948 investigation involving [REDACTED]. It was noted that although the Special Agent in Charge of the Detroit Division was aware that the parents of [REDACTED] in view of their background and hostile attitude, would do anything to protect the subject and to interfere with the Bureau's investigation, neither the Special Agent in Charge nor the Assistant Special Agent in Charge assumed personal on-the-scene supervision over the search by FBI agents of the parents' home under a Federal search warrant in an effort to locate and apprehend the fugitive, nor did the Investigative Division question this failure. Moreover, notwithstanding the fact that the agents participating in the execution of this warrant and the subsequent search of the residence of the subject's parents did a most competent job, the Investigative Division failed to initiate action to recognize the commendable manner in which the participating agents discharged their responsibilities.

By letter dated 11-15-54 he congratulated the Director for having received the Cardinal Gibbons Medal for outstanding and meritorious service to the United States. This was acknowledged on 11-17-54.

By letter dated 2-17-55 he was advised of the results of the recent streamlining survey conducted of the Investigative Division by Inspector Edwards. He was informed, among other things, that in view of the decrease in the workload on the Interstate Transportation of Stolen Motor Vehicle Desk and the Theft from Interstate Shipment Desk and the temporary reassignment of a Reviewer Analyst from the Theft from Interstate Shipment Desk, he must closely watch the workloads on these desks to determine if a trend in reduction of cases develops. He was also instructed to expedite the revision of the accounting lessons so they would be completed by 3-11-55, at the latest and he should advise the Bureau when this had been accomplished. In general, the results determined from a survey of the various sections of the Investigative Division indicated the need on his part for constantly insuring that extremely close supervision was being afforded the various operations.

By letter dated 2-18-55 he was CENSURED inasmuch as the results of the streamlining survey just made in the Special Inquiry Section of the Investigative Division disclosed that he and his subordinates failed to take appropriate action to reduce the number of personnel assigned to this section when the volume of work declined without waiting for the Training and Inspection Division to discover the situation and recommend appropriate action.

By letter dated 3-10-55 he was CENSURED for the failure of the Investigative Division to fix responsibility for errors appearing in investigative reports as noted during the recent survey conducted by the Training and Inspection Division.

On 3-31-55 Mr. Tolson rated him SATISFACTORY.

By letter dated 4-5-55 he was CENSURED in connection with the inquiry made into the length of time required to complete the Security of Government Employees investigation relating to [redacted] and it was noted that one of the Special Agent Supervisors responsible for this case in his division was chargeable with a lack of alertness and inexcusable delay. The agent in question did not immediately advise the Bureau Laboratory of the existence of certain handwriting specimens in the Bureau's files when it became known that additional handwriting specimens were required in connection with a handwriting examination. b6

By letter dated 4-15-55 he was CENSURED for the extremely dilatory manner in which he handled certain mail pertaining to the Departmental Applicant case involving [redacted]. Specifically, a memorandum dated 4-12-55, with a teletype attached was received in his office shortly after noon on that same date and there was a delay of nearly 24 hours before this correspondence cleared his office. This was certainly an undue delay. b6

By letter dated 5-17-55 he was CENSURED for the failure of several Special Agent Supervisors assigned to his division to comply with existing regulations regarding the sign-in and -out register. After these employess had certified on the register that they were ready to assume their official duties they were observed in the basement of the Justice Building engaging in personal activity and they failed to indicate their absence from official duty on the register.

By letter dated 5-24-55 he was CENSURED in that on 5-13-55, an agent of the Investigative Division was observed reading a newspaper at his desk after having recorded on the sign-in and -out register that he was ready to assume his official duties. Reading newspapers after signing in for work was not one of the regularly assigned duties of this supervisor and it was evident that he did not fully appreciate the scope of his responsibilities.

By letter dated 6-22-55 he was COMMENDED for the excellent work he performed in connection with the recent Operation Alert. b6

By letter dated 6-29-55 he was CENSURED for the unwarranted delay which occurred before a satisfactory summary memorandum regarding the handling of the case entitled "[redacted] et al; Interstate Transportation of Stolen Property" was submitted to the Director. More than a week elapsed before an acceptable memorandum furnishing the necessary facts was produced by his division and the delay in this case reflected indifference and apathy on the part of himself and his subordinates. b6

By letter dated 7-7-55 he was COMMENDED for his close, personal supervision at the Seat of Government and the effective guidance and direction he furnished the field in the investigation conducted relative to the [redacted] matter.

By letter dated 7-11-55 he was CENSURED for the failure of himself and personnel under his supervision to participate in scheduled outdoor firearms periods as required by Bureau regulations. b6

By letter dated 9-6-55 he was CENSURED for his failure to recommend appropriate administrative action for employees in his division who were responsible for the inefficient handling of an important matter pertaining to the Security of Government Employees case involving [redacted]. It was apparent on the basis of the facts developed that he did not properly analyze this situation.

On 9-12-55 the Director saw Mr. Rosen, who had returned from having some physical examinations made at the Georgetown University Hospital. Mr. Rosen stated that a very thorough examination had been made of him and that all that was found to be wrong was a stomach condition diagnosed as spastic colon, which with proper medication could be controlled. Mr. Rosen wanted the Director to know he felt equal to carrying on his duties as Assistant Director and wanted also to express his appreciation for the consideration which the Bureau had extended to him.

By letter dated 9-16-55 APPRECIATION and gratification was expressed for the splendid record made by the Investigative Division in exceeding its quota on the opening day of the 1955-56 FBI Employees Consolidated Charity Drive.

In a memorandum to Messrs. Tolson, Boardman, Rosen, and Nichols dated 9-22-55, the Director advised that recently it had become obvious to him that the Investigative Division was not as aggressive as it should be nor manifesting the initiative that was essential for the proper functioning of the Bureau. The Director had particularly in mind the failure of the Investigative Division to take any action relative to the recent publicity concerning the Mafia until after the Director had inquired about the same and expressed some doubt as to whether the Investigative Division knew what it was talking about in response to the Director's inquiry. Then an SAC Letter was sent by the Investigative Division to the field. It was not until after inquiry had been made as to what was being done as to our coordination and cooperation in these projects that the Investigative Division sent an SAC Letter to the field.

The mere sending of an SAC Letter, of course, was not the solution of any problem. All that it does was to brush off the responsibility from here at headquarters to a field level. The Director feared that the Investigative Division was lapsing into a condition of lethargy and only acted when either Mr. Tolson or himself (the Director) stirred up. The action taken then was usually limited to the drafting of an SAC Letter and then a relapse occurred upon the part of the Investigative Division until some further issue arose. This obviously was a deplorable condition and unless corrected at once, the Director would take drastic steps to effect a change in the handling of the work by other personnel than that presently assigned to the Investigative Division.

By letter dated 10-16-55 the Director CONGRATULATED him on his Twenty-Second Anniversary with the Bureau.

By letter dated 10-20-55 he was COMMENDED, and through him to Special Agents John J. Coneys and Dillard W. Howell, for the excellent manner in which they handled the matter pertaining to the investigation of the Bank Robbery case involving Thomas Keith Fisher.

On 10-27-55 he advised the Director that he had heard that O. Gordon Delk, Internal Revenue Service understood he (Rosen) would be eligible for retirement in the near future and was anxious to know whether he (Rosen) would be available to fill the position of Assistant Commissioner for Inspection of the Internal Revenue Service. Mr. Delk was informed that he had no intention of retiring from the Bureau. Mr. Rosen's letter was acknowledged on 11-2-55.

His daily average overtime for October, 1955 was 2 hours 16 minutes.

By letter dated 11-17-55 APPRECIATION was expressed to him and his entire Division for the very creditable record he attained during the work week beginning 11-7-55, in having no mail returned for the correction of errors.

His daily average overtime for November, 1955 was 2 hours 36 minutes and for December, 3 hours 27 minutes.

By letter dated 1-12-56 he was COMMENDED for his able direction of the Brink's Robbery case.

His daily average overtime for January, 1956 was 3 hours 54 minutes and for February, 3 hours 54 minutes.

On 3-2-56 he called to see the Director to express his apology and regrets for the recent mishandling of some of the important phases of the Civil Rights work of his Division. The Director told Mr. Rosen that he appreciated his interest in this matter in coming to express his regrets, but the fact remained that there had been gross mishandling of entirely too many matters in his Division and that the several incidents recently involving Civil Rights matters had caused the Director extreme embarrassment.

b6

The Director went into detail relative to the incomplete brief supplied him for use at the conference with the representatives of the National Council of Negro Women on 2-28-56. The Director also called his attention to the incompleteness of the brief prepared for the Director for use in briefing the Cabinet and the necessity for the Director to have Mr. Tolson and Mr. Nichols take over the preparation of the summary statement for his use in this meeting. The Director likewise called his attention to the delays upon the part of his Division in getting prompt information from the field on a number of highly important Civil Rights cases, such as developments in the case of [] at Tuscaloosa, Alabama, and the [] case at Florence, South Carolina.

By letter dated 3-8-56 he was CENSURED and PLACED ON PROBATION for the improper functioning of him and his subordinates in connection with the preparation of a brief regarding certain Civil Rights matters. This brief failed to include any facts concerning an allegation and investigation into the allegation that witnesses Leroy Collins and Henry Lee Logan had been illegally detained in the Charleston, Mississippi, Jail during the trial in the Emmett Till murder. Furthermore, he approved a memorandum dated 3-1-56, which erroneously characterized the Collins-Logan matter as "rumor" and contained a faulty evaluation as to whether the Collins-Logan situation violated the rights of Emmett Till.

By letter dated 3-15-56 he was CENSURED for failure to detect a number of nonsubstantive errors which had appeared in official correspondence reviewed and approved by him.

On 3-31-56 Mr. Tolson rated him SATISFACTORY.

His daily average overtime for March, 1956 was 5 hours 10 minutes.

During an Inspection of the Investigative Division from January 1 to April 6, 1956, Inspector Van Pelt rated the various functions of the Division as follows:

PHYSICAL CONDITION AND MAINTENANCE.....	EXCELLENT
INVESTIGATIVE OPERATIONS.....	UNSATISFACTORY
ADMINISTRATIVE OPERATIONS.....	VERY GOOD
PERSONNEL MATTERS.....	GOOD

By letter dated 4-18-56 he was CENSURED and CONTINUED ON PROBATION in view of the recent inspection of his Division. While favorable progress was shown in some operations, it was highly essential that immediate and effective steps be taken to bring all activities of the division to the highest possible level of performance. The following observations should serve as a guide toward reaching that objective. He was advised among others things that despite the reduction in over-all time required to complete the various types of applicant and loyalty investigations, the percentage of missed field deadlines was too high. Closer attention should be devoted to the accurate submission of weekly delinquency reports. The numerical increases in both qualified and potential criminal informants since the last inspection, and the tangible results obtained through this coverage during the past calendar year, were encouraging. Much tighter control of bank robbery investigations must be established by him and the personnel of the Criminal Section, in order that the Bureau might properly handle its responsibilities in this highly important classification. Errors noted in the Criminal Section were excessive and serious. The Inspector reported that morale seemed to be high in four sections of the division; he reported a tendency in the Criminal Section, however, to gloss over the weaknesses found. The Inspector advised that this was evidenced in six unresponsive or evasive replies to inspection write-ups.

His daily average overtime for April, 1956 was 2 hours 50 minutes and May 1 hour 51 minutes and June 2 hours 24 minutes.

By letter dated 7-23-56 APPRECIATION was expressed to him and, through him, to the appropriate agent supervisors for the fine job done in the Investigative Division during the fiscal year just ended as reflected in the Bureau's statistical accomplishments.

His daily average overtime for July, 1956 was 3 hours 54 minutes.

By letter dated 8-31-56 he was COMMEDED for his handling of the multiple problems which arose in Washington in connection with the Obstruction of Justice case involving an attack on Victor Riesel.

By letter dated 8-27-56 he was COMMEDED for the interest he displayed in the recent two-day conference with regard to labor racketeering matters.

By letter dated 8-31-56 he was COMMEDED for the successful results obtained in the Kidnaping case involving Angelo John LaMarca.

His daily average overtime for August, 1956 was 4 hours 52 minutes.

During an Re-check Inspection of the Investigative Division in August, 1956, Inspector Teague rated the various functions as follows:

PHYSICAL CONDITION AND MAINTENANCE.....	EXCELLENT
INVESTIGATIVE OPERATIONS.....	VERY GOOD
ADMINISTRATIVE OPERATIONS.....	GOOD
PERSONNEL MATTERS.....	EXCELLENT

By letter dated 9-4-56 he was advised that he was being REMOVED FROM PROBATION in view of the findings of the Inspector during the recent inspection of his division. Investigative operations were rated as very good. The two substantive errors, one of which was chargeable to the field, could have caused serious embarrassment. It was gratifying to note the favorable reduction in the time required to complete investigations in Applicant, Civil Rights and Security of Government Employee cases and to process name checks. The decline in pending fugitive investigations, occasioned by the decrease in deserter cases, indicated the necessity to develop additional general fugitive cases. Errors in correspondence, although below the Bureau average for June and July, 1956, reflected the necessity for closer attention by stenographic and supervisory employees. The Inspector was impressed with the enthusiasm evidenced by employees in the recent investigative achievements of the division. This creditable attitude should be encouraged.

His daily average overtime for September, 1956 was 4 hours 30 minutes.

By letter dated 10-10-56 he was COMMEDED inasmuch as the Investigative Division had oversubscribed its quota in the United Givers Fund campaign.

By letter dated 10-17-56 he was CENSURED for his failure to detect and have corrected a number of errors in correspondence which he had approved.

His daily average overtime for October, 1956 was 2 hours 35 minutes and for November, 1 hour 56 minutes.

His daily average overtime for December, 1956, was 3 hours 1 minute and for January, 1957, 3 hours 44 minutes.

By letter dated 2-28-57 he was CENSURED inasmuch as the Director was most displeased with the brief and summary prepared in the Investigative Division for the Director's use in connection with the Director's conference with the Attorney General on this date dealing with certain improper activities in the Labor-Management field and the pending Senate Committee investigation. Numerous very important matters were omitted entirely, other facts were not set out in sufficient detail and as initially submitted no table of contents or index was attached. The need of these in connection with a document of such length should have been thoroughly obvious to him and his subordinates. In connection with the handling of this memoranda the Director noted "This is atrocious. I want Tamm to immediately look into this and overall operations of Investigative Division as I do not intend to tolerate such slipshod sloppy work any longer. H."

His daily average overtime for February, 1957, was 3 hours 23 minutes.

By letter dated 3-1-57 he was CENSURED in view of the most inadequate manner in which a problem relating to the Impersonation investigation of Anthony J. Lobritto was handled in the Investigative Division. A memorandum from the Albany Office was received in his division on 2-12-57, and although it involved a complaint from another Government agency and possible dereliction on the part of an FBI Agent almost two weeks' time elapsed before a memorandum and an outgoing communication were submitted in satisfactory form. The nature and seriousness of this problem should have made the necessity for prompt and efficient handling obvious.

By letter dated 3-15-57 he was COMMENDED for the exceptionally fine way in which the investigation of the Bribery case involving James Riddle Hoffa and others was handled by him.

On 3-31-57 Mr. Tolson rated him SATISFACTORY.

His daily average overtime for March, 1957, was 5 hours 27 minutes.

DURING AN INSPECTION OF THE INVESTIGATIVE DIVISION IN MARCH, 1957, INSPECTOR TEAGUE stated he made an excellent personal appearance, was thoroughly familiar with Bureau policies, relations and procedures. Under his guidance accomplishments in the Investigative Division had improved. Length of time to complete deadline matters had improved and with such

improvements Inspector considered he was fully qualified to continue as Assistant Director. The Various functions of the division were rated as follows:

PHYSICAL CONDITION AND MAINTENANCE.....GOOD
INVESTIGATIVE OPERATIONS.....GOOD
ADMINISTRATIVE OPERATIONS.....FAIR
PERSONNEL MATTERS.....VERY GOOD

By letter of 4-16-57 he was CENSURED in view of the findings of the Inspector. Results of the inspection reflected a need for better coordination regarding outgoing correspondence, a reduction in airtels sent and establishment of an improved procedure to insure prompt issuance of Identification Orders. It was essential that mail of a non-routine nature be approved above the unit or section level. It was expected that he would take the necessary action to insure that any future security violations were prevented. There were favorable findings, including improvement in meeting deadline matters, increase in criminal informant production at lower cost, and the increase in three of four categories of statistical accomplishments. It was noted that the category of fines, savings and recoveries was down over last year's level by 50 per cent. It was necessary for the Inspector to point out deficiencies in the charge-out and inventory systems regarding keys maintained by his division. Thirteen instances were noted wherein supervisory personnel had not recorded overtime on attendance registers at the end of the day in accordance with existing instructions. It was encouraging to note that the number of approved criminal informants had increased during 1956. Stenographic and clerical operations were found to be current and the production of the stenographers in his Division was above the Seat of Government average. A survey was made regarding the handling of special memoranda and the management of paper work in his division. During a 5-day period, 110 items amounting to 5.3 per cent of the total production, were retyped. With regard to deadline cases, it was noted the time necessary to complete civil rights, applicant and employee security cases had decreased. The Inspector reported that deadline-type cases were receiving close supervisory attention. The errors found in outgoing mail amounted to 0.19 per cent, and, although this was below the Bureau average of 0.22 per cent, a further reduction was expected. Two substantive errors were found in field reports. Two instances were found where unrealistic letters were prepared and sent from the Investigative Division to the field regarding delinquencies and accomplishments. Individual letters had been sent to the same field division where better correlation would have resulted if one letter were sent. The Inspector reported that overtime was being equitably shared and that morale was high. The successful conclusions of the Brink's Robbery and the Weinberger Kidnaping and the successful investigations in the Riesel and Hoffa cases had made a particularly favorable reflection on the Bureau.

His daily average overtime for April, 1957, was 2 hours 27 minutes.

By letter dated 5-17-57 he was CENSURED inasmuch as the Investigative Division had been most derelict in its supervision of the Interstate Transportation of Stolen Property investigation based on the theft of jewelry from Bartz and King, jewelers, at Washington, D. C., on 12-4-54. Although this case had been unsolved for over two years it apparently received little thoughtful or aggressive supervision in his division until the Director recently made inquiry concerning the case. In addition, details furnished the Director on 5-10-57, disclosed an obvious delay on the part of the Washington Field Office but no effort was made to fix responsibility or to recommend administrative action until the Director made specific inquiry on this point. In connection with this, Mr. Tolson noted "It is a shame that these derelictions were not spotted by Boardman and Rosen until after Mr. Hoover had to personally request detailed explanations to find out reasons for improper handling of this case...." The Director noted "It is regrettable but a rather common occurrence. H."

His daily average overtime for May, 1957, was 1 hour 46 minutes. b6

By letter dated 6-20-57 he was CENSURED in view of the failure on his part and on that of personnel under his supervision to properly supervise a phase of the Theft from Interstate Shipment case involving [redacted]. An agent assigned to the New York Division received a certain Bureau instruction relating to his appearance in court during the trial of this case and on 6-10-57, he personally instructed that the Bureau be informed immediately of all subsequent developments. This was not done and there was a failure by the agent of the New York Division to carry out the intent of the instruction that had been received by him. If this matter had been followed more closely by Mr. Rosen and his subordinates in the Investigative Division these delinquencies could have been avoided.

His daily average overtime for June, 1957, was 4 hours 55 minutes.

By letter dated 7-17-57 he was COMMENDED for the splendid statistical accomplishments of the Bureau in certain criminal investigative categories during the fiscal year just ended. The Bureau was impressed by the excellent results realized in this field and wanted those in his division who made these accomplishments possible through competent and diligent application to duty to be commended.

His daily average overtime for July, 1957, was 2 hours 1 minute and for August, 2 hours 42 minutes.

By letter of 9-20-57 he congratulated the Director on his forceful, forthright, and timely remarks before the American Legion Convention. This letter was acknowledged on 9-25-57.

By letter of 9-25-57 employees of the Investigative Division who participated in the handling of work during the recent investigation of an important Civil Rights matter were COMMEDED, through him.

His daily average overtime for September, 1957, was 4 hours 54 minutes.

By letter of 10-16-57 the Director congratulated him on his Twenty-fourth Anniversary with the Bureau. He thanked the Director for this note by letter.

On 10-20-57 he received a Uniform Promotion to \$14,835 per annum in GS-17.

His daily average overtime for October, 1957, was 2 hours 37 minutes and for November, 3 hours 3 minutes. b6

By letter dated 12-3-57 he was CENSURED for his failure to assure that the investigation of the Bail Jumper case involving [REDACTED] received appropriate investigative attention. Even though the need was recognized to concentrate investigative efforts on the subject's wife, there was a failure to promptly obtain all pertinent information in her possession, and as a result the apprehension of the subject was delayed.

His daily average overtime for December, 1957, was 2 hours 56 minutes.

On 1-12-58 he received a Basic Increase to \$16,335 per annum in GS-17.

His daily average overtime for January, 1958, was 2 hours 56 minutes and for February, 3 hours 8 minutes.

On 3-31-58 Mr. Tolson rated him SATISFACTORY.

His daily average overtime for March, 1958, was 4 hours 48 minutes.

By letter dated 4-18-58 he was CENSURED for the failure of him and his subordinates in the Investigative Division in the Fraud Against the Government - Conspiracy case involving the Nicaro Nickel Plant to

precisely define the scope of the Bureau's inquiry in official communications disseminating the results of investigation. Particularly, in view of the significance of this case the extent of the investigation should have been clearly set forth so that no possible misunderstanding might arise. The failure to handle this matter properly reflected poor judgment by him and his associates.

His daily average overtime for April, 1958, was 3 hours 17 minutes; for May, 3 hours 9 minutes; for June, 3 hours 49 minutes.

By letter dated 6-26-58 he was CENSURED and PLACED ON PROBATION in view of the findings of Inspector Edwards during the special inspection of the Deserter Fugitive Unit. A copy of this inspection summary was enclosed for his use and he was advised the Director had approved all of the corrective action recommended so far as concerned weaknesses in the Deserter Fugitive Unit and a complete, immediate and vigorous housecleaning of the entire division by Mr. Rosen. The Director stated, however, that he had changed the deadline for the completion of all this action to 8-29-58, and instructed a complete recheck beginning 9-2-58. The Director stated he could not express too strongly his (the Director's) feelings concerning the deplorable weaknesses which existed in the Deserter Fugitive Unit. It was equally significant that he admitted these weaknesses when confronted with them. Yet they were permitted to exist unnoticed for an indeterminate time simply because he and his executive staff to whom the Director entrusted responsibility for properly managing that work were guilty of "assuming" the unit was operating satisfactorily without personally concerning themselves to insure that things were what they seemed. It was necessary to personally make regular periodic spot checks to see that the job was being done properly. The Director advised he was having a schedule drawn up to be followed by him, Messrs. Hargett and Price for personally making minimum spot checks and after same had been approved and sent to him there was to be no deviation from it without personal approval of Mr. Tolson or the Director. The schedule would, of course, call for periodic compliance reports.

He was further advised that substantial evidence was developed by the Inspector to convince the Director that if the Director had not expressed some concern over fugitive cases in general he might not now be engaging in some of the special programs which he had. It was apparent he had not sufficiently intensified the emphasis on old pending Deserter-Fugitive cases. He was instructed to immediately advise his entire supervisory staff that the so-called systems of "selective" and "full" supervision were hereby and henceforth abolished. He was to advise them of their proper basic responsibility as Seat of Government

supervisors over field investigations as outlined in the inspection summary. He was expected by August 29 at the latest to insure beyond doubt that all division supervisors were operating in line with their correct basic responsibilities. He was advised that in abolishing a term such as "selective supervision" which had been in existence for thirteen years he could not assume that the readjustment would be automatic. Intensive indoctrination and guidance were necessary. His report would be expected to specifically cover the manpower situation throughout the division and include recommendations for any reduction possible. Because of the situation existing in the Deserter Fugitive Unit the Director instructed that one of the two agent supervisors there was to be immediately released which meant that Mr. Rosen would be expected to operate that unit with only one agent supervisor. His report by August 29, 1958, should confirm the completion of all corrective action there and the fact that the unit was in topnotch condition. The Director emphasized that the deadline of August 29, 1958, was the maximum time the Director was permitting for the Investigative Division to be completely brought into line.

It is noted in connection with the special inspection of the Deserter-Fugitive Unit, the Inspector stated findings indicated a possible reduction of one agent supervisor after 90-day adjustment. The Director noted "I will agree to 60 days. Rosen got himself into this mess and must get himself out. H." The Inspector stated that Mr. Rosen would carry out recommended checks of entire Division and report re compliance and possible release of additional agent (and clerical) personnel; in meantime agreed to maintain division at no higher than present agent strength, not request any agent replacements resulting from vacancies without full current justification and proof work load could not be absorbed by remaining personnel. Mr. Tolson noted "I hope Rosen really does this. T." The Director noted "I doubt it. H." The Inspector stated "selective supervision" was ineffective and should be abolished. It had tended to create undesirable misconception that there could be only two extremes: "full" supervision at one end, or "selective" supervision at the other end. Inspector felt we must "clear the air" by telling supervisors these "labels" were abolished. Then advise them there was no "double standard"; that basic responsibility was same in all types of cases. Inspector felt responsibility for insuring entire Investigative Division completely operating on that basis should be Mr. Rosen's. The Director noted "The trouble is Rosen has never really assumed it. H." In recommending action against Mr. Rosen, the Inspector stated he should be severely censured. The Director noted "Yes. Also ~~to~~ be placed on probation. His final disposition I am considering. H."

On 7-10-58 the Director saw him. Mr. Rosen called to express to the Director his regrets over the recent deplorable situation which had arisen in the Investigative Division in the Fugitive Section and stated he would certainly endeavor to see there was not a recurrence of this type of situation. The Director told him he was thoroughly disgusted at the manner in which he had been supervising the Investigative Division and that the recent incident in the Fugitive Section where it was found there was little coordination and little system for checking field reports was merely a culmination of a series of incidents which showed he had not exercised the proper supervisory direction of the Division. The Director called his attention to the investigation made of former Commissioner Richard Mack and the failure to determine certain salient facts at that time about Mr. Mack's financial activities. The Director also called his attention to the failure of his Division to have taken any positive steps to determine the activities of the Mafia. The Director called his attention to the fact he had not taken any positive steps toward implementing coverage in the Criminal field until after the Apalachin meeting. His attention was also called to the deplorable situation as to the supervision of jewel robberies and to the fact that in the Miami Office no steps had been taken in the early part of this year to have proper coverage as well as proper coverage of the homes of known jewel thieves in that field division. The Director called his attention to the improper handling of Identification Orders and mentioned particularly the failure of the Investigative Division to issue an I. O. in the [redacted] Case. The Director stated that Supervisor F. W. Doerner, who had been in charge of the Fugitive Desk, had informed the Inspector he did not understand it was the duty of the Supervisors to check out such matters as the lead which had not been followed in the Cincinnati Field Division and when followed resulted in the apprehension of a fugitive. The Director stated this indicated a lack of leadership upon the part of Mr. Rosen and failure to properly indoctrinate and instruct Supervisors. The Director told him there were entirely too many Supervisors in his Division and he had not exercised proper leadership of them and he had procrastinated in reaching decisions as to the fitness of the Supervisors, citing the cases of Supervisor Johnson and Supervisor Dougherty. The Director told him that he should immediately remove him (Mr. Rosen) as Assistant Director, but intended to give him just one more chance and wanted him to know that he (the Director) had ordered a prompt inspection of all sections of the Investigative Division and if the conditions were not found to be satisfactory, it would be necessary for the Director to replace him. Mr. Rosen indicated he would certainly do everything within his power to have his division in proper condition when the inspection was made.

His daily average overtime for July, 1958, 3 hours 22 minutes.

b6

By letter dated 8-26-58 he was CENSURED for the inadequate functioning of the Investigative Division in connection with a phase of the Bank Robbery case concerning the Greenwood Branch of the Seattle First National Bank. On 1-27-58, another law enforcement agency furnished the name of [redacted] as a suspect but approximately six months elapsed before that matter was resolved. In order to avoid possible embarrassment there was a particular need in that instance to perform a thorough, prompt investigation and it was the responsibility of the Investigative Division to assure that that was done. However, in view of the delay that occurred, it was apparent that the field was not afforded necessary guidance and direction and he shared the responsibility for that delinquency.

By letter dated 6-1-62 he was CENSURED with respect to the failure of his division to immediately advise the Director of the fact that a prior Bureau investigation of Billie Sol Estes had been conducted in 1961. In addition to the derelictions of his subordinates in that matter, he was personally at fault in failing to insure that the Director was promptly informed of this vital matter.

By letter dated 7-11-62 he was CENSURED & PLACED ON PROBATION for his failure to advise the Director of extremely important information relating to the Bureau's investigation regarding Billie Sol Estes. It should have been evident that the request by the McClellan Committee that we hold in abeyance interviews with certain individuals who were scheduled to testify before the group was of extreme importance and there was no justification whatsoever for his failure to take appropriate action. By letter of 7-13-62 he expressed regret for the mishandling of this case.

DURING AN INSPECTION OF THE GENERAL INVESTIGATIVE DIVISION in July, 1962, Inspector H. E. Hoxie stated Mr. Rosen made an excellent appearance and was an experienced employee. The ratings and findings of the inspection were as follows:

PHYSICAL CONDITION AND MAINTENANCE.....	VERY GOOD
SPECIFIC DIVISION OPERATIONS.....	UNSATISFACTORY
ADMINISTRATIVE OPERATIONS.....	UNSATISFACTORY
PERSONNEL MATTERS.....	FAIR
CONTACTS.....	VERY GOOD

By letter dated 7-25-62 he was advised of the findings of the inspection and in view of the gross deficiencies which had been detected in the Estes and Bache cases, he was CONTINUED ON PROBATION. It is noted the Unsatisfactory and Fair ratings in Specific Division Operations, Administrative Operations, and Personnel Matters were based on various deficiencies of the Billie Sol Estes Case.

By letter dated 7-20-62 he was CENSURED & CONTINUED ON PROBATION for the failure of the Oklahoma City Office and the General Investigative Division to set out information regarding a previous investigation

and conviction of Louie N. Dumas. In addition to the shortcomings on the part of his division, it was obvious that he was most culpable in failing to properly brief the SAC of the Oklahoma City Office concerning the importance of the Billie Sol Estes case and the absolute necessity of insuring that the Bureau's responsibilities were completely covered. In connection with the handling of the Billie Sol Estes case by the General Investigative Division, the Director indicated that there was too much "executiveitis" in that division and that there were too many generals and too few top sergeants.

It was noted he had advised the Director that no specific instructions were issued to the New York Division to check the list of stolen securities or to interview all of the employees of the victim firm who had access to them and when the Director inquired of him whether these things had been done, he did not know. This revealed he was not on top of this investigation and that he had left the supervision of it to his subordinated, which was inexcusable.

By letter dated 7-27-62 he was CENSURED for failing to obtain appropriate recommendations for administrative action from the El Paso Office for an apparent breach of Bureau instructions involving failure to properly encode a teletype sent to the Bureau on 7-7-62 in connection with the Billie Sol Estes case.

Dear Director Webster:

During the course of this Subcommittee's investigation of Korean-American relations, several Bureau employees, both current and retired, have become significant to our inquiry. At this time I am requesting that another Bureau employee be made available to the Subcommittee staff.

As indicated in conversations between my staff and Mr. Ron Heller of the Office of Congressional Affairs, the Subcommittee wishes to meet with Mr. A. Rosen, formerly of the Domestic Intelligence Division. The staff would like to meet with Mr. Rosen during the week of April 10-14. I am further requesting that the FBI relieve Mr. Rosen of any security agreements which could interfere with staff questioning on topics related to Korean-American relations and awareness on the part of Executive Branch officials of attempts by the Government of the Republic of Korea to influence U.S. officials and policy.

Should you have any questions concerning this request, please have your staff contact either [redacted] or [redacted] at 225-7722.

Thank you for your cooperation in this matter.

RE: INTERVIEW OF FORMER FBI ASSISTANT
TO THE DIRECTOR ALEX ROSEN BY
SENATOR RICHARD S. SCHWEIKER AND
SSC STAFF MEMBERS

Former FBI Assistant to the Director Alex Rosen was interviewed on April 30, 1976, by Senator Richard S. Schweiker and SSC Staff Members. He was released from his confidentiality agreement with the FBI for the purpose of the interview, concerning the President Kennedy assassination.

Former Assistant to the Director Rosen's account of the interview follows:

"Having been placed under oath by Senator Richard Schweiker of Pennsylvania and in the presence of Committee Counsel [] and [] and a court reporter, I covered the following subject matters generally.

b6

"Organization of the General Investigative Division: We discussed the function of this Division and its relationship to the Domestic Intelligence Division. We discussed the various supervisors' responsibilities in the General Investigative Division.

"They wanted to know what specific instructions we received with reference to handling the investigation. They were informed the investigation was initiated immediately following the assassination based upon instructions of the Director; that a full and complete investigation be instituted.

RE: INTERVIEW OF FORMER FBI ASSISTANT TO THE DIRECTOR
BY SENATOR SCHWEIKER AND SSC STAFF MEMBERS

"I was shown various memoranda, many of which I did not initial nor did I recall seeing. These referred to the following subject matters:

"(1) The plot to kill Castro: These memoranda referred to information furnished by former Agent Edward P. Morgan. One was an 'eyes only' memorandum which was directed to persons other than me by the Director. I had not previously seen this memorandum. It indicated Morgan was persona non grata. He had been in contact with Drew Pearson concerning the Castro plot. They were concerned with this phase of the inquiry because it appeared the Bureau did not desire to talk with Morgan because of his status. According to subsequent memoranda received, information concerning the Castro plot was furnished to the Bureau by James Rowley, former head of the Secret Service.

"(2) Regarding Maheu: This concerns a telephone tap that was placed by Maheu and involved one member of organized crime named Balletti. Maheu had indicated he was working with the CIA in connection with a plot to kill Castro. I was not familiar with any of the subject matter and after briefly reading the memorandum, I so advised them. I do recall the CIA and specifically one Edwards was mentioned with the CIA.

"(3) They referred to the Warren Commission Report and a premature of the final two volumes which were submitted by the FBI, I believe in October of 1964, to the Commission. They referred to these reports as being the conclusion of the investigation. I told them that I did not believe the investigation has been concluded. It would remain open if further inquiry was desired by the Commission.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FORMER FBI ASSISTANT TO THE DIRECTOR
BY SENATOR SCHWEIKER AND SSC STAFF MEMBERS

"One memorandum shown me referred to the Bureau's reaction concerning the Warren Commission Report which was published. They wanted to know if we felt the Warren Report was critical of the Bureau. They wanted to know whether the Director had released any reports to the press prior to action taken by the Warren Commission. I did not recall any memoranda shown me concerning this matter.

"For your information, one memorandum refers specifically to the Director's comment as a footnote. In referring to areas which were critical of the Bureau's operation, the Director in substance said we would never live this criticism down.

"They showed me memoranda which reflected administrative action taken against 17 of our personnel. This memorandum was not routed to me. I did not recall ever seeing it. They wanted to know whether I knew of any administrative action which had been taken against Agents. I said that I recall an inspection check had been made but I did not know of the outcome. I based my answer on the memorandum which had been shown me.

"My reaction is this. They appeared to have talked to other personnel and wanted either my corroboration, denial, or recollection. Frankly, my answers were not conclusive because of the passage of time and the brief examination of material submitted to me.

"The Committee expressed their appreciation for my assistance. The interview lasted from 12:00 noon to 2:35 p.m."

Dear Clarence,

I wish to thank you for the book recently issued by the Congress which pays high tribute to the memory of Mr. Hoover. Your comment that this book sets a precedent is aptly descriptive of the Congressional action and also is in harmony with his entire career.

You are most thoughtful in remembering me and I am most appreciative.

Dear Al:

Enclosed is a copy of a book recently issued by the Congress which I thought you might like to have. You may wish to know that this book sets a precedent inasmuch as none like it have been published unless the person being paid the tribute had previously been a member of Congress or a President of the United States. It is indeed fitting that Congress should do this in memory of Mr. Hoover who did so much in his lifetime to better this great Nation of ours.

I trust this finds you in good health and sincerely hope that all is going well for you.

With my warmest best wishes,

Sincerely, REC-148

INSTRUCTIONS TO EMPLOYING AGENCY

COMPLETION OF CERTIFICATION

1. This Certification must be completed in triplicate whenever an employee's insurance terminates for:
 - a. Death.
 - b. Retirement on an immediate annuity with 12 or more years' creditable service, of which at least 5 years are civilian service, or on account of disability. (An immediate annuity is one which begins to accrue not later than 1 month after the date the insurance would normally cease.) In a disability retirement case, do not complete SF 56 until a finding of disability has been officially made and the employee's separation is in order.
 - c. Completion of 12 months in a non-pay status or separation, and the employee is receiving benefits under the Federal Employees' Compensation Law, and held unable to return to duty.
 - d. Any other reason, if the employee desires to convert his life insurance, except under the following circumstances:
 - (1) Employee waived or declined on SF 176 (or SF 176-T);
 - (2) If it is known that, within 3 calendar days after the date the insurance terminated, the employee will return to Government service in the same or another position in which he will be eligible to reacquire Federal Employees Group Life Insurance;
 - (3) More than 75 days have elapsed from the date insurance terminated unless specific request is made therefor by the Civil Service Commission or the Office of Federal Employees' Group Life Insurance.
2. If insurance terminated on account of death, indicate in item 3(a) whether the employee had filed an Application for Retirement (SF 2801) with the Civil Service Commission.
3. In item 8, give date of Notice of Conversion Privilege (SF 55), except that if this form (SF 56) is issued in lieu of SF 55, give current date. In case of death, leave this item blank.
4. It is important whenever a duplicate SF 56 is issued to replace one which has been lost, that it be clearly marked "DUPLICATE".

DISPOSITION OF CERTIFICATION

1. Death of employee—
 - a. Send duplicate of SF 56 immediately to the Office of Federal Employees' Group Life Insurance.
 - b. Keep the original (preferably in the Official Personnel Folder or its equivalent) for attachment to a claim for death benefits (Form FE-6) when received.
 - c. If no claim is received, send original SF 56, upon request, to the Office of Federal Employees' Group Life Insurance.
 - d. If the deceased employee has a current Designation of Beneficiary (SF 54) on file, the SF 54 must be attached to the original SF 56 when it is sent to the Office of Federal Employees' Group Life Insurance.
2. Retirement of employee—
 - a. Seals of attesting officers must always be impressed; provided, however, that where acknowledgments before a notary public, or other officer authorized by law to administer oaths, are not thus authenticated by the official impression seal of such officer, the power should be accompanied by a certificate from the proper official showing that the officer was in commission on the date of the acknowledgment. The date when the officer's commission expires should appear in any event. If a certificate is furnished, such certificate should show the dates of the beginning and expiration of the officer's commission, and such period of commission should include the date of acknowledgment of the power.

3 (c). Notwithstanding the foregoing, persons subject to military jurisdiction may acknowledge powers of attorney before officers specially designated for that purpose pursuant to law.

4. This power of attorney is revoked by the death of the grantor and may also be revoked by notice from the grantor to the parties concerned. Notice of revocation to the Treasury will not ordinarily serve to revoke the power.

5. If it is desired that checks be mailed to the attorney instead of to the payee, formal notice of change in the post-office address, identifying the checks affected, should be forwarded to the administrative office which authorized issuance of the checks.

6. POWERS OF ATTORNEY NEED NOT BE FILED WITH THE TREASURER OF THE UNITED STATES.

INSPECTION - GENERAL INVESTIGATIVE DIVISION
ASSISTANT DIRECTOR W. M. FELT
5/23/69 - 6/5/69

SUMMARY

Officials: Alex Rosen, Assistant Director since 2/13/42; James R. Malley, Number One Man since 4/6/52. Last inspection: 4/3 - 16/68.

Physical Condition and Maintenance - Excellent (Last Inspection - Excellent). Division occupies space on two floors of Justice Building and one floor of Identification Building (Name Check Section). Space well maintained, secure and adequate. Minor house-keeping delinquencies corrected. b6

Specific Division Operations - Very Good (Last Inspection - Very Good). Noteworthy achievements since last inspection were 4 major kidnapping cases solved, including the [redacted] and [redacted], cases; indictments obtained and arrests made of 23 subjects in automobile ring case involving 110 cars; local conviction of James Earl Ray growing out of investigation of murder of Martin Luther King, Jr.; extensive investigations in the Civil Rights field, specifically in connection with the Democratic National Convention; arrest of 6 subjects in connection with 8 bank robberies which netted \$227,000; and arrests of 10 subjects in an Interstate Transportation of Obscene Matter case with seizure of over 2 truck loads of obscene material and \$8,000,000 of stolen or counterfeit goods. Case load 4/30/69 -- 41,453 -- down slightly since last inspection. Name checks increased -- delinquency low. No substantive errors detected. Statistical accomplishments first 10 months of Fiscal Year (FY) 1969 in classifications supervised by Division up 14.8% in fines, savings and recoveries; up 34.1% in automobiles recovered; and down 4.6% in convictions. Overall Bureau statistical accomplishments up in three categories but down 2% in convictions. Division has aggressive programs and feels large number of subjects pending prosecution (over 8000) will insure convictions exceed FY 1968. Need to continue pressure on field stressed. U. S. Attorneys deferred prosecution of 6,048 subjects to local authorities first 9 months of FY 1969 -- 3,265 convictions obtained. Majority (81%) of cases deferred were in Interstate Transportation of Stolen Motor Vehicle classification. Bank robbery matters increased 7.1% since last inspection -- overall solution rate increased to 76% (67% last inspection). Unsolved bank robbery matters significantly decreased from 2282 to 2087 since last inspection. Suggestion made to realign Federal Train Wreck and Interception of Communications classifications within Division -- Assistant Director Rosen concurred.

Memo for Mr. Tolson

Re: Inspection - General Investigative Division

Administrative Operations - Excellent (Last Inspection - Excellent). Supervisory responsibilities and work load equitably shared. Supervisors highly qualified and experienced. Errors in outgoing correspondence low. Stenographic production above Seat of Government average -- retypes low. Programs and surveys justified and productive. Suggestions made to revise Accounting Correspondence Course and to raise minimum acceptance amount to \$1,500 in Ascertaining Financial Ability cases. Odd-hour shifts justified. Percentage of suggestions adopted up since last inspection -- increase noted in contributions to Law Enforcement Bulletin, "The Investigator," and submission of human interest items.

Personnel Matters - Very Good (Last Inspection - Very Good). Personnel complement 5/28/69 - 171 (62 Agents, 109 clerks). Inspector determined that 1 clerical vacancy need not be filled -- resulting complement of 170 (62 Agents, 108 clerks) adequate but not excessive -- Assistant Director concurs. Training of new employees effective. Voluntary overtime necessary, productive and equitably shared. 100% membership FBIRA. One clerk on probation, two Agents on limited duty -- retention justified. No overweight Agents. Morale appears high.

Contacts - Excellent (Last Inspection - Excellent). Productive contacts in Congress, Executive Departments and private business by Division officials and supervisors. Number of liaison and high-level contacts total 104, down from 141 (86 deleted, 49 added); however, emphasis placed on high quality contacts. Legislative matters being followed closely.

RECOMMENDATIONS:

1. Assistant Director Alex Rosen, EOD 10/18/33, GS-18 @ \$30,239, aged 63, nonveteran, not on probation, in charge of Investigative Division since 2/13/42 and General Investigative Division since formation 2/10/61. Assistant Director Rosen is an impressive Bureau executive. He is an extremely dedicated, intelligent administrator who has the respect of his subordinates. His vast experience and excellent leadership qualify him to continue in his present assignment. If approved, attached letter will advise him of inspection findings.

2. Inspector James R. Malley, EOD 10/11/37, GS-18 @ \$30,239, Number One Man of Investigative Division since 4/6/52 and General Investigative Division since 2/10/61, aged 57, nonveteran, not on probation. Inspector Malley is a dedicated Bureau official with outstanding knowledge of Bureau rules and procedures. He makes an excellent appearance, is well respected and is an extremely capable and qualified administrator.

Memo for Mr. Tolson
Re: Inspection - General Investigative Division

Continue in present assignment. If approved, attached letter will serve to advise him of the inspection findings.

PERSONAL ATTENTION

Mr. Alex Rosen
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Rosen:

After reviewing the results of the recent inspection of the General Investigative Division, I have approved the following ratings for the various operations: Physical Condition and Maintenance, Administrative Operations, and Contacts - Excellent; Specific Division Operations, and Personnel Matters - Very Good.

Your space in both the Justice and Identification Buildings was found to be well maintained, secure and adequate.

The noteworthy achievements of your Division since the last inspection are certainly gratifying. The [] and [] kidnaping cases and the James Earl Ray case are deserving of special mention. The successes obtained in these cases certainly reflected most favorably upon the Bureau. While I am pleased with the increases realized in three of the four statistical categories for the first ten months of Fiscal Year 1969, I am concerned with your Division's deficit in convictions. You must keep pressure on the field particularly to insure that all convictions are promptly reported. No substantive errors were found during the inspection and this reflects favorably upon your attention to detail in the supervision of investigative matters.

The improvement shown in the overall solution rate in bank robbery matters is encouraging as is the significant decrease in unsolved cases.

Promptly implement the Inspector's suggestion to realign the Federal Train Wreck and Interception of Communications classifications within sections of your Division.

DUPLICATE YELLOW

Mr. Alex Rosen

The Inspector found supervisory responsibilities and work load equitably shared by qualified and experienced supervisors. Effectiveness of the supervision is pointed up by the fact that errors in outgoing correspondence have been held to a low level, the fact that stenographic production is above the Seat of Government average, and the fact that retypes are low.

Investigative programs and surveys were found to be justified and productive. Promptly implement revision of the accounting correspondence course along the lines suggested by the Inspector.

I was pleased to note the excellent participation of your employees in the Bureau's suggestion program and the increase in contributions to the Law Enforcement Bulletin and "The Investigator."

While the number of liaison and high-level contacts is down since the last inspection, I was pleased that the Inspector found a healthy turnover with emphasis being placed on high-quality contacts. I shall expect you to continue to give this phase of your responsibilities close personal attention.

You and the Number One Man must carefully study the inspection findings and within thirty days of receipt of this letter inform the Inspection Division of corrective action taken.

Sincerely yours,

John Edgar Hoover

PERSONAL ATTENTION

Mr. Alex Rosen
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Rosen:

I have reviewed the results of the recent inspection of the General Investigative Division and have approved the following ratings for the various operations: Physical Condition and Maintenance, Administrative Operations, and Contacts - Excellent; Specific Division Operations, and Personnel Matters - Very Good.

The space of your Division in both the Justice and Identification Buildings was found to be well maintained, secure, and adequate.

The noteworthy achievements of your Division since the last inspection in matters of nation-wide interest reflected most favorably on the Bureau. The Yablonski murder, the Chicago Anti-Riot cases, and the case involving the arrest of fourteen individuals in the United States and Europe for the theft of thirteen million dollars in Treasury Bills were outstanding examples of these achievements. I was pleased with the Division's substantial contributions to the four categories of statistical accomplishments which were up in Fiscal Year 1969. In matters supervised by the Division, statistical accomplishments were up in three categories, but down only ten convictions during the first seven months of Fiscal Year 1970. You should continue to afford the category of convictions your personal attention, and pressure must be kept on the field to insure that all convictions are promptly reported.

The importance of Anti-Riot Law investigations cannot be over-emphasized. You should insure investigations of potential violations are vigorously pursued and prosecutions pressed with the Department to insure our responsibilities in this highly volatile and important area are fully discharged.

Mr. Alex Rosen

It was heartening to learn that the solution rate in bank robbery matters increased substantially since the last inspection and that the high solution rate has undoubtedly had a material effect in reducing the number of offenses. Steps should be taken immediately to implement the Inspector's suggestions to explore the use of automatic data processing in the Bank Robbery Suspects Program and to implement the requirement that only the original of the Automobile Recovery Form be submitted by the field. Your programs and surveys to enhance investigative results were analyzed and found to be justified and beneficial. These programs and surveys should continue to receive periodic evaluations to insure they are productive of the desired results.

The Inspector found an equitable sharing of the work load by highly qualified and experienced supervisors. I was pleased to learn that stenographic production is above the Seat of Government average and that errors in outgoing correspondence were held to a minimum. The number of suggestions submitted by employees of your Division during the past year represented a slight decrease when compared with the previous year. You should encourage all employees to participate in this important program. The increase in the number of submissions to Bureau publications is a desirable trend.

As the work load of the Bureau continues to grow far more rapidly than our Agent complement, it becomes increasingly important for you and your staff to be ever alert for streamlining and innovation which will make operations more efficient. Along this line, be sure that we are making maximum logical use of the National Crime Information Center and that there is imaginative use of the computer for investigative purposes.

The Inspector found the training programs for new employees in your Division to be effective and morale high. These are healthy situations and definitely should be maintained. I was pleased with the increase in the number of high-level contacts and the effectiveness of the speech program before quality groups. You should continue to afford these important programs your close personal attention.

You and the Number One Man must carefully review the inspection report and work papers left with you. Advise the Inspection Division as soon as possible of the corrective action you have taken.

Sincerely yours,

John Edgar Hoover
Director

savings and recoveries, 1.8% in automobiles recovered, 8.2% in fugitives apprehended, and down only 10 convictions notwithstanding continued restrictive prosecutive policy in Interstate Transportation of Stolen Motor Vehicle cases promulgated by Department. Division has aggressive program designed to enhance statistical accomplishments and need to continue pressure on field stressed by Inspector. Bank Robbery violations for period 2/1/69 to 1/31/70 decreased by 102 compared with preceding 12-month period. Solution rate up from 71.6% to 80.2% since last inspection. Suggestions made for Division to explore utilization of automatic data processing in Bank Robbery suspects program; and, that only original of Automobile Recovery Form (FD-410) be submitted by field to save handling of extra copy -- Assistant Director Rosen concurred.

Administrative Operations - Excellent (Last Inspection - Excellent). Supervisory responsibilities and work load equitably shared. Supervisors highly qualified and experienced. Errors in outgoing correspondence held to a minimum. Stenographic production above Seat of Government average and retypes below. Surveys and intensification programs to enhance investigative results imaginative, justified and productive. Odd-hour shifts justified. Number of suggestions adopted down from comparable period preceding last inspection. Increase noted in contributions to Bureau publications.

Personnel Matters - Very Good (Last Inspection - Very Good). Authorized complement as of 2/13/70 - 170 (62 Agents and 108 clerks) adequate and not excessive -- Assistant Director Rosen agrees. 10 of 15 existing clerical vacancies being filled with 5 in Name Check Section being held in abeyance pending future trends in work load. New employee training is effective. Voluntary overtime equitably shared, necessary and productive. FBIRA membership 98.7%. Two Agents on limited duty -- continuation justified. No Agents on probation or overweight. Morale appears high.

Contacts - Excellent (Last Inspection - Excellent). Productive contacts in Congress, Executive Departments and private business by Division officials and supervisors expanded to 121 from 104 at time of last inspection. Total of 15 speeches by Division officials to quality groups since last inspection. Attention being afforded to legislative and executive matters affecting Bureau investigative jurisdiction.

YEAR-END PRESS RELEASE

TEV Reference memorandum 7-21-70 from Mr. M. A. Jones to Mr. Bishop captioned as above. There follows additional information concerning this matter which shows that student plans to engage in political activities this Fall has been widely reported in the news media.

"Life" magazine issue of 6-5-70 carried an article entitled "A Student Campaign to Get Peace Started." This article reported the founding in May, 1970, at Princeton University of a Movement for a New Congress; pointed out that the group already had chapters on more than 300 campuses; and noted that the Movement had requested colleges and universities to let students have two weeks off just before the November elections. The article reported that students connected with the group were working strenuously on behalf of Lew Kaden, who was campaigning on a strong antiwar platform in the Democratic primary for New Jersey's 15th District.

The 6-16-70 issue of "Look" magazine carried an article on student dissidence which reported that students from twenty-nine colleges and universities had joined with Princeton students to plan strategy for electing antiwar candidates to Congress this Fall. According to the article, the Movement for a New Congress would have its national headquarters at Princeton and set up at least eight regional centers on campuses throughout the country.

"Time" magazine 5-25-70 carried an article captioned "The New Student Crusade: Working in the System." This article reported on the Movement for a New Congress started at Princeton and identified four antiwar Congressional candidates chosen for support by the organization. The article noted that another group, the National Petition Committee, based at the University of Rochester, was seeking 20 million signatures on petitions against the Vietnam war in an effort to exert pressure on the existing Congress. Another student political-action group described was the so-called Continuing Presence in Washington which reportedly had established a research and information service

in the Nation's capital. The article reported on various other student and/or faculty efforts to organize political pressure on behalf of the antiwar drive. It noted that Princeton University had decided to recess classes for two weeks before the November elections so that students could work in congressional campaigns and that dozens of other colleges were devising similar arrangements.

A typical propaganda release issued by the National Strike Information Center, a recently organized student antiwar group, attacks the Nixon Administration as follows: "For the first time a major breach has been made in the repressive wall of Nixon's southern strategy. For the first time this sinister administration has been forced on the defensive.....The calculated attempt of this administration to destroy civil liberties in this country is so obvious that it hardly needs belaboring.....The real historical importance of the student strike to date has been the fact that it has begun to smash through Nixon's repressive strategy and has begun to reverse the ominous drift toward the totalitarization of American Society." This release also noted that among various activities being promoted by the group was electoral campaigns.

It is clear from the foregoing that the statement in our year-end press release is fully justified: namely that student committees have been formed to plan activity for the coming Fall; that they will encourage support of candidates who are opposed to the war in Southeast Asia and to the Nixon Administration policies; and that they are demanding that schools be closed so that students will be free to take part in this activity.

ADDENDUM (7/22/70), WCS/csh:

While this memorandum is factually correct, and while the facts to sustain the statement in the press release are accurate, nevertheless it is believed we could have conveyed the same message without reference to the administration and thus avoid any unjust implication of partisanship.

We know that all members of the New Left will scrutinize any statement made by the Director to see if they can distort, turn, or twist it to serve their own nefarious purposes. All divisions preparing this kind of material are being instructed to scrutinize with extreme care the precise wording of any proposed public statements of the Director in the future, in order to reduce to a minimum these irrational and invalid criticisms.

This is to recommend the Section Chiefs of the Accounting and Fraud, Civil Rights, Criminal and Name Check Sections be commended and through them the personnel of those Sections responsible for their accomplishments during Fiscal Year 1970.

The Bureau recorded 13,245 convictions in Fiscal Year 1970 as compared with 13,166 in Fiscal Year 1969. All but about 12 percent of the convictions recorded in Fiscal Year 1970 were derived from cases supervised by the General Investigative Division.

30,599

30,599 automobiles were recovered in cases investigated by the FBI during Fiscal Year 1970 as compared with 29,220 during the prior fiscal year. The vast majority of these automobiles recovered were in cases supervised by the Criminal Section. Fines, Savings and Recoveries totaled \$410,974,099 or \$1.60 per appropriated dollar for Fiscal Year 1970 as compared with \$345,832,583 or \$1.57 per appropriated dollar during the 1969 Fiscal Year. It is noted that over 99 percent of the Fines, Savings and Recoveries are attributable to work handled by the General Investigative Division.

We handled in excess of 1,823,000 name check requests during Fiscal Year 1970. During the past Fiscal Year numerous specials were received requiring priority treatment, all of which were handled on an expedite basis.

REC 137

67-80005-2545

The Criminal Section supervised cases in which millions of dollars of stolen securities have been recovered; both in the United States and abroad. Arrests and convictions have included members of La Cosa Nostra. Several car ring cases have been investigated, one of which involved simultaneous arrests in several cities. Eighteen subjects have been indicted for violations of the Dyer Act. Fifteen individuals are awaiting trial in connection with a bank burglary case involving 40 burglaries committed in several states in which in excess of \$350,000 was taken.

Memorandum to Mr. DeLoach
Re: Accomplishments - General
Investigative Division

Eight convictions have been obtained as a result of our investigations in Interstate Transportation of Obscene Matter cases involving commercial-type cases. In addition, in excess of 15 individuals have been arrested.

The Accounting and Fraud Section, in addition to handling a high volume of work during the year, accounted for about 75 per cent of the total Fines, Savings and Recoveries recorded. It also handled such cases as the Yablonski murders; the Andrew Stone Fraud Against the Government case wherein four individuals entered guilty pleas in connection with a scheme to defraud the Government of more than \$4,000,000 in connection with the production of rocket launchers for the Navy's use in Vietnam; the Bribery and Conflict of Interest investigation against former Senator Daniel Brewster and others; and various labor racketeering cases involving union officials and La Cosa Nostra members.

The Civil Rights Section handled a high volume of work during the year. Important highlights of their accomplishments include the conviction under Antiriot Laws of five militants involved in Chicago disturbances during the Democratic National Convention, the indictment of 12 national leaders of the Weathermen in connection with disturbances in Chicago in October, 1969, and the indictment of eight revolutionaries in Seattle in connection with an attack on the Seattle Federal Building in February, 1970. A Federal Grand Jury in Detroit is presently hearing evidence of a conspiracy to commit violence by some 20 leaders of Students for a Democratic Society.

A number of major Civil Rights investigations, including the disturbances at Kent State University, Jackson State College, and disorders in Augusta, Georgia, were supervised in the Civil Rights Section.

Indictments were returned against 12 law enforcement officers charged with brutality during disorders at Berkeley, California, and five officers in Paterson, New Jersey, charged with unreasonable force in arresting two seminary students. Eight officials of Seafarers International Union were also indicted for making illegal political contributions of more than \$750,000.

Pursuant to your instructions, I have identified supervisor who prepared and officials who approved the release containing unfortunate language subject to misinterpretation as political partisanship. This language which appears on page five of release was originally prepared by Supervisor [redacted], Research Section, Domestic Intelligence Division (DID). It was submitted informally together with other suggestions from DID and was approved by Section Chief R. D. Cotter and Assistant Director C. D. Brennan before being sent to Crime Records Division.

Supervisor [redacted] in Crime Research Section coordinated material submitted by various Divisions and portion in question was taken with very little change from informal draft of DID. Changes were minor and did not affect the meaning.

RECOMMENDATIONS:

(1) That the 13 Officials and Supervisors identified above (with the exception of DeLoach, who is retired) as preparing or approving the release be censured for the inclusion of unfortunate language in the release subject to misinterpretation as political partisanship.

Memorandum

TO : MR. SULLIVAN

DATE: 10/13/70

FROM : A. Rosen

cc Mr. Sullivan
Mr. Rosen
Mr. Brennan
Mr. Shackelford

SUBJECT: NEW LEFT MOVEMENT - VIOLENCE
INTERNAL SECURITY - Miscellaneous
(RECENT BOMBINGS) *11/1/68*

In accordance with the Director's instructions, I called Mr. Brennan and advised him that the Director was most displeased with the way he and I handled the matter which was to be given to the President yesterday afternoon concerning the bombings (referred to in a memorandum from Mr. Shackelford to Mr. Brennan, 10/11/70).

The Director pointed out that he wanted it clearly understood, when he issued instructions to have this material out yesterday afternoon, he expected such would be done and he did not want any deviation from such instructions. If additional information was to be furnished, it could have been furnished in a supplemental memorandum; however, the memorandum, as instructed by the Director, should have been sent out yesterday afternoon. He also advised me that he had not received the memorandum as of the time of his call this morning, and that he had received a call from the President concerning this.

The Director reiterated his displeasure and said he would not tolerate any exceptions made to instructions given by him, and wanted it clearly understood by everyone concerned.

I regret very much my failure to follow up on instructions which had been issued by me that such material was to be out yesterday afternoon. I wish to advise the Director that this will not occur again.

re letter to Mr. Haldeman re bombings.

Mr. Rosen says this letter was prepared yesterday and after preparation more information came in which it was desirable to include, so it was written over and is coming thru now.

Assistant Director ^{C.D.} Brennan states the letter was rewritten yesterday afternoon to include additional information and it will be in the Director's office by 10:30 this morning.

He was asked specifically -

Why it was not in Mr. Hoover's hands yesterday.

Why, if there was a delay, the Director was not advised

Mr. Alex Rosen

Dear Mr. Rosen:

I recently gave instructions to prepare a very important letter to a high ranking member of the Presidential staff concerning bombing matters. I specifically requested that this communication reach my office by the afternoon of October 12, 1970. My orders were completely ignored as the communication did not arrive at my office until this morning. This disregard of my instructions is inexcusable.

I will expect you to take appropriate steps to insure flagrant derelictions such as this do not recur.

Very truly yours,

FILMS OF THE CHEST of 10-27-70: On the PA chest film there is a 8 mm rounded calcific density projected over the anterior aspect of the left 5th rib anteriorly, with its junction with the left posterior

seventh rib. This is mostly likely a calcified intrapulmonary granuloma. Oblique films of the chest are requested to

exclude a rib density superimposed on the lung field.

There are several hilar calcifications on the left side.

The heart size is normal.

Apropos my earlier call concerning the condition of Mr. Rosen, I learned Mr. Rosen is still in the hospital and quite likely will be there for several more days. Today for the first time the doctor permitted him to do a little standing. He spends most of the time in bed. Under the circumstances if the Director agrees we will send flowers from J. Dear Mr. Rosen:

Initial details concerning the burglary of the Media Resident Agency were furnished to the Bureau on March 9, 1971, and although subsequent contact was had with representatives of the Department concerning this criminal act, two weeks elapsed without a memorandum being prepared for the Attorney General. As Assistant Director, you should have realized the gravity of this incident and taken appropriate steps to insure that the Attorney General was advised of it immediately and status reports furnished to him thereafter. Your failure to do this is inexcusable.

In the future, you will be expected to recognize your responsibilities in such serious matters and to properly instruct personnel under your supervision so that a dereliction of this nature will not recur.

Dear Mr. Hoover,

I wish to assure you that I as well as all of your associates are disgusted at the yellow journalism which is being put out by a group of stinkers, who are supposed to be members of the third estate.

Those of us who have been with you for so many years know your dedication to the men and women of the FBI and to the principles upon which this Bureau has grown to be the world's greatest law enforcement organization.

If these bastards think for one moment they will be effective they are in for a sad reckoning.

We all hope and pray you will continue to be our Director as long as you desire. The country and the District of Columbia, and I say this advisedly in referring to the District of Columbia, still have the greatest respect for you and the FBI.

Sincerely,

The following chronology of events are set forth concerning the burglary of the Media Resident Agency on 3/8/71:

Initial details concerning this burglary were received at the Bureau during afternoon of 3/9/71 by teletype from Philadelphia Office. SAC, Philadelphia has afforded on-scene supervision of case utilizing special squad since inception. Criminal aspects of burglary being handled by special squad in Criminal Section. On 3/9/71 following notification of burglary Philadelphia Office was instructed to compile and furnish Bureau summary of items missing.

To determine items missing is a painstaking and time consuming operation since this has to be accomplished through review of charge out slips in Philadelphia Office files, reconstruction of notes and rough drafts from Agents' memories, identification and submission of copies from Bureau and auxiliary office files. On 3/11/71 Philadelphia Office submitted initial copies of serials known to be missing to the Bureau. Serials were immediately reviewed and analyzed by each division having supervisory responsibility over subject matter involved. By Friday, 3/12/71, these reviews were completed and memoranda submitted by Domestic Intelligence, General Investigative, Administrative and Special Investigative Divisions. Subsequent to that date additional missing serials have been received at the Bureau and these too have been reviewed and memoranda analyzing their contents have been submitted by the substantive division involved.

Recognizing the impact material in these serials could have on FBI operations, a memorandum was prepared on Monday, 3/15/71, requesting approval for a representative of FBI Legal Counsel's Office to be

Re: MEDBURG

accompanied by a representative of the General Investigative Division to discuss the legal aspects with Department concerning a court order to prohibit public disclosure of the FBI documents taken. Approval for this action was obtained on 3/16/71. Because Assistant Director Dalbey appeared before the Senate Judiciary Subcommittee on both the morning and afternoon of 3/17/71, the conference with Deputy Assistant Attorney General Leon Ulman Office of Legal Counsel, was held on the morning of 3/18/71. Ulman indicated there was little precedent for an order prohibiting disclosure of this information, however, a possibility existed such an order might be obtained. He suggested this matter be discussed with the Civil Division or the division having jurisdiction over the case. The conversation with Mr. Ulman was confirmed in writing on 3/19/71 by letter to the Assistant Attorney General, Office of Legal Counsel, with copies to Assistant Attorneys General, Criminal and Civil Divisions. The Criminal Division was requested to advise as soon as possible as to the feasibility of initiating such action since the possibility existed there may be a public disclosure of stolen FBI material in the very near future.

b6

Prior to this conference with Ulman, we contacted William Lynch, Department attorney who is handling the [] case, on 3/16/71. Lynch was furnished the details concerning the Media burglary and was advised that certain individuals associated with the East Coast Conspiracy to Save Lives (EASTCON) may be involved in this burglary. One such individual was [] unindicted co-conspirator in the EASTCON case, who had publicly announced that he had received a news release concerning the burglary from the Citizens Commission to Investigate the FBI. Mr. Lynch stated he did not want [] interviewed by the FBI at this time. Our conversation with [] was confirmed by memorandum dated 3/18/71 to the Assistant Attorney General, Internal Security Division, copy to Criminal Division. This letter indicated no active investigation would be conducted concerning the burglary of the Media Resident Agency relative to defendants or unindicted co-conspirators in the EASTCON case without first clearing this with the Department.

On 3/23/71 Mr. Ulman contacted a representative of the FBI Legal Counsel's Office and indicated that he was referring to the Civil Division the FBI request concerning the possibility of getting a restraining order prohibiting the disclosure of any information taken from documents during the Media theft.

Rosen to Sullivan Memorandum
Re: MEDBURG

In reference to the above, it is pointed out the Philadelphia Office was not able to immediately construct a detailed list of all of the material which had been stolen. To do so necessitated a check with auxiliary offices, Bureau files and other references which might be available to the Philadelphia Office. As a matter of fact, of the 17 items delivered to Congressman Mitchell and Senator McGovern only six had previously been identified by the Philadelphia Office as having been stolen. Philadelphia has been requested to explain why these missing serials were not detected earlier.

The Attorney General by memorandum on 3/23/71 indicated he would appreciate being advised with all possible speed with respect to the nature and content of the documents which have been identified to date as missing. In this connection Mr. Mardian, in conference with Mr. Sullivan, asked to be furnished with such data. Following Mr. Mardian's request, Xerox copies of all serials sent to Congressman Mitchell and Xerox copies of 103 serials stolen from Media Resident Agency were hand delivered to him last night.

ACTION: Attached for approval is a letter to the Attorney General with copies to Deputy Attorney General, Assistant Attorneys General Criminal, Civil, Internal Security Divisions and the Office of Legal Counsel. Letter specifically refers to previous contacts with Departmental officials wherein details concerning Media burglary were furnished. Reference also is made to fact that Xerox copies of certain serials were hand delivered to Mardian on 3/23/71. Remaining copies of stolen serials being forwarded to the Attorney General.

As additional material is identified as stolen and copies received at the Bureau, the substantive desk handling the violation involved will prepare a memorandum analyzing the nature of the data. The responsible division will likewise prepare a memorandum to the Attorney General furnishing Xerox copies of the stolen material.

Sullivan & Rosen are to be censured for their failure to notify A.C. immediately following the robbery & attempt to extort.

There were also numerous other major case accomplishments.

Case load 3/31/71 - 42,519, a decline of 1,067 or 2.5% from 3/31/70. Decrease due to decline in Interstate Transportation of Stolen Motor Vehicle (ITSMV) matters as result of streamlined handling in field. No substantive errors detected. Bureau statistical accomplishments in Fiscal Year (FY) 1970 increased in all 4 categories over FY 1969. For first 10 months of FY 1971 overall Bureau statistics up in all 4 categories. In classifications handled by Division, statistical accomplishments for

first 10 months of FY 1971 up 7% in fines, savings and recoveries; 7% in automobiles recovered; 9% in fugitives apprehended, and down 11% (142) in convictions. Decline due to decrease in convictions ITSMV cases, wherein restrictive prosecutive policy of Department in deferring cases to local authorities for prosecution continues. Division has aggressive program to increase accomplishments in this category and has overcome much of the losses in ITSMV convictions in other classifications of cases. New legislation expanded Bureau's jurisdiction in bombing cases and pending matters up substantially. Bank robbery violations for the period 3/1/70 - 3/31/71 increased by 638, compared with the preceding period. The solution rate since the last inspection has decreased from 80.5% to 71.7%. Instructed to intensify supervision to press for solutions. Suggestions made to the Division to modify reporting period in Intensification Program in Criminal Fraud Matters to conserve manpower; to place license numbers and other information in the Medburg (Burglary of Media Resident Agency) investigation in National Crime Information Center (NCIC) Stop Index; to institute changes in method of recording convictions in Interstate Transportation of Stolen Property matters by categories to improve supervision; to utilize automatic data processing to obtain additional analyses for improved supervision in bombing cases.

Administrative Operations - Excellent (Last Inspection - Excellent). Supervisory responsibilities well defined and organized with productive direction of operations. Work load equitably shared. Supervisors experienced and well qualified. Errors in outgoing correspondence minimal. Stenographic production above Seat of Government average. Surveys and intensification programs to improve investigative results are constructive and justified. Odd-hour shifts justified. Number of suggestions made and adopted up from comparable period last inspection. Contributions to Bureau publications have increased. Interest in use of automatic data processing to save manpower continues. Division requested regularly assigned 4:00 PM - 12:00 Midnight supervisor to improve efficiency (approved separately).

Personnel Matters - Very Good (Last Inspection - Very Good). Authorized complement 5/14/71 - 165 (63 Agents, 102 clerks). Nine clerical vacancies absorbed in Name Check Section due to increased productivity and decreased work load. Voluntary overtime equitably shared, necessary and productive. Two Agents on limited duty - productive - continuation justified. No Agents on probation or overweight. All stenographers afforded tests passed the examinations. Morale appears high.

Contacts - Excellent (Last Inspection - Excellent). Division continues productive contact program - 46 contacts deleted with 33 new contacts selected. Total number contacts 13 less than last inspection. Number of speeches to quality groups increased since last inspection. Legislative and executive matters affecting Bureau's investigative jurisdiction being afforded continued attention.

PERSONAL ATTENTION

Mr. Alex Rosen
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Rosen:

I have reviewed the results of the recent inspection of the General Investigative Division and have approved the following ratings for the various operations: Physical Condition and Maintenance, Administrative Operations and Contacts - Excellent; Specific Division Operations and Personnel Matters - Very Good.

The space occupied by your Division in the Justice and Identification Buildings was found to be well maintained. Security of space is of great concern to me and I want you to impress upon all personnel the importance of maximum security.

The noteworthy achievements of your Division since the last inspection in matters of national interest have reflected favorably on the Bureau. The Division's substantial contributions to the statistical accomplishments of the Bureau in Fiscal Year 1970 were encouraging. However, in cases supervised by your Division, statistical accomplishments for the first ten months of Fiscal Year 1971 indicate a decrease in convictions. I realize the restrictive policy of the Department concerning prosecution of Interstate Transportation of Stolen Motor Vehicle cases is difficult to cope with; nevertheless, deficits must be made up from other investigative classifications. These matters should receive your close personal attention and pressure must be maintained on the field to insure all convictions are reported promptly.

The investigations of bombings and violations of the Antiriot Laws must be pursued vigorously to achieve positive results. Prosecutive action should be followed with the Department in these areas to see that our responsibilities are properly discharged. The investigations of the break-ins at our Resident Agencies at Media, Pennsylvania, and Garden City, Long

Island, must continue to receive your personal attention and they are to be conducted with meticulous care to identify and prosecute the perpetrators.

The unfortunate decrease in the solution rate of bank robbery matter violations may well be an important factor contributing to the serious increase in the total number of violations occurring. You should take steps to reverse this undesirable trend.

The suggestions made by the Inspector concerning various phases of your operations should be implemented promptly. Your programs and surveys were found to be beneficial and should be continued but evaluated periodically to insure they continue to be productive.

The number of contributions to Bureau publications and the number of suggestions made and adopted by employees of your Division increased since the last inspection. You should continue to maintain an interest in the use of the National Crime Information Center and strive for maximum use of automatic data processing to improve investigative and supervisory techniques.

I was pleased to learn that all stenographers passed examinations afforded them by the Inspector. Training programs for new employees in your Division are effective and morale appears high.

You should increase the number of high-level contacts of your Division and emphasize your speech program before quality groups. Continue to afford these programs your personal attention.

You and the Number One Man must carefully review the inspection report and work papers left with you. Advise the Inspection Division as soon as possible of the corrective action you have taken.

Sincerely yours,

John Edgar Hoover
Director

MEMORANDUM FOR MR. TOLSON

MR. FELT
 MR. ROSEN
 MR. MOHR
 MR. BISHOP

I called SAC Charles W. Bates in Chicago and told him, with reference to our talk some weeks ago, I have sent out a letter this morning designating him Assistant Director in charge of the General Investigative Division. I said I would like to have him get here just as soon as he can, in fact he could come and go back and bring on his family later. He said he would do so. I said I would like to have him here Monday morning. He said he will be here then.

I advised Mr. Eates that I have removed Mr. William C. Sullivan and dropped him from the rolls for insolence and insubordination; that I have named Mr. Alex Rosen as the new Assistant to the Director; and that in Mr. Rosen's absence, he will act as Assistant to the Director.

Mr. Bates expressed his appreciation and said he will be in Monday morning. I told him he can go back for his family anytime; that he should get the lines going here; that he has a good #1 Man, Mr. Rex I. Shroder. Mr. Eates said yes, he knows Mr. Shroder. I said Mr. Shroder's work has been outstanding; that he was on the Mackle case and did a very fine job; and that I recently made him an inspector.

I told Mr. Bates, when he comes in Monday, we can discuss the problems he will face and how I want matters handled.

I advised Mr. Bates that I named Mr. Roy K. Moore, the SAC at Jackson, as SAC at Chicago. I stated Mr. Moore has done a very fine job in Philadelphia on a special. I said I don't know how soon Mr. Moore can get out to Chicago because on his way to the plane a couple of weeks ago he fell and has a dislocated disc; that it will probably be the middle of October before he can get to Chicago; but that won't affect Chicago because Chicago has a good #1 Man; and for Mr. Eates to be here Monday.

Mr. Bates said he will; that he appreciates it; and that he is working for me and will do everything the way I want it done. I said that is what I want - loyalty and dedication. I said I didn't get that from Sullivan. Mr. Bates said he knew I didn't. I said he (Sullivan) wouldn't retire

voluntarily so I had to take action yesterday to remove him. I stated that I don't want yes men but I want men to give me their views and, when I make a final decision, I want them to carry them out. Mr. Eates said this is how it should be. I said there has to be somebody at the top to make those decisions; that the President and the Attorney General have left me here; and that I intend to continue to make them.

The Director has designated Mr. Rosen as Assistant to the Director and Mr. Bates as Assistant Director of the General Investigative Division. Mr. Sullivan's retirement is effective at the close of business 10/6/71 and, accordingly, the official effective date of the designations will be 10/7/71. Enclosed are copies of Standard Form 50, "Notification of Personnel Action," which is the official record of such designations. The approval by the Department on the SF-50 executed on each of the captioned officials is necessary because, under the delegation of authority to the Director for personnel actions, the Department retained authority for personnel actions regarding positions of Assistant Director and above.

RECOMMENDATION:

That upon approval by the Director, the two attached Standard Forms 50 be returned to the Administrative Division for delivery to the Department for approval.

Former Assistant to the Director Alan Belmont called me around 4:30 p.m. today and stated he had received a long distance telephone call from an individual who described himself as [redacted] (no first name) of the Washington Bureau of the New York Times. [redacted] said he wanted to talk to Belmont informally and off the record. Belmont told [redacted] he would listen to what he had to say but he was not sure whether he would answer all of his questions. [redacted] asked the following questions and Belmont gave the response indicated:

Was Sullivan ever SAC of an FBI field office. Belmont responded that he did not recall that Sullivan was ever SAC of a field office but did recall that he served on SIS in rather important capacities during his Bureau career.

Was Sullivan the most experienced Bureau official in the fields of security and espionage. Belmont responded he did not agree that Sullivan enjoyed such a category, that there were many in the Bureau who had outstanding qualifications in the security and espionage field.

There was a liaison group in the FBI of ten Special Agents or so. The question was whether this liaison group had been cut down substantially in the recent past. Belmont responded he had no knowledge of any such internal reorganization in the FBI.

Manpower allegedly has been taken off security and espionage work and diverted to civil rights investigations - is this correct? Mr. Belmont stated he had no knowledge of any such reassignment of personnel as indicated.

Do you, Belmont, know Al Rosen. Belmont responded that he knew Al Rosen as a personal friend and as a Bureau official of many years standing and that he had a high regard for Al Rosen.

Does Al Rosen have any experience on security matters. Mr. Belmont responded that Al Rosen had a wide experience in Bureau investigative activities, had been Assistant Director of the General Investigative Division for many years and obviously had considerable contact and experience with security work.

JPM:DW (5) 1971 1 - Mr. Felt
93 1 - Mr. Bishop
1 - Mr. Rosen

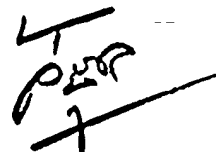

(CONTINUED - OVER)

Do you, Belmont, know Mark ~~X~~Felt. Belmont said he responded by indicating that he knew Mark Felt and he gave a little background of Felt's Bureau experience indicating that at one time he was SAC at Kansas City, was Assistant Director in charge of the Inspection Division and had been recently assigned to some other official position at the Seat of Government; however, that he, Belmont, did not know of any current changes or assignments of personnel in the FBI at the present time.

b6

Belmont said the whole tenor of the questions seemed to be is the Bureau paying sufficient attention to security and espionage matters. Belmont said in trying to answer [] questions he made it a point to state that he has been away from the FBI for more than five years, that he has no knowledge of what is transpiring at the present time, that he is not acquainted with some of the current Bureau top personnel but that he does know Sullivan and has a high regard for him and that he also wanted [] to specifically and definitely understand that he has a high regard for Mr. Hoover and the Bureau and for what Mr. Hoover and the Bureau are trying to do in so far as the welfare of this country is concerned.

The foregoing is submitted for your information.

Enclosed herewith are the original and one copy of two affidavits to be executed by Mr. Alex Rosen, Assistant to the Director. Since the affidavits recite that Mr. Rosen has reviewed the affidavits of the other Federal Bureau of Investigation defendants in each action, a copy of the affidavits of each such defendant in each case is also enclosed.

All the affidavits will be filed with the court in Milwaukee on January 7, 1972, in support of a motion for summary judgment being made by us on behalf of the individual Federal Bureau of Investigation defendants. Accordingly, we request that the executed affidavits of Mr. Rosen be returned to us on January 5, 1972.

The exhibits to be attached to Mr. Rosen's affidavits are in the process of preparation and will be transmitted directly when they are ready.

We have set forth Mr. Rosen as the official to sign the affidavits since these affidavits are comparable to those previously signed in similar litigation in the Las Vegas cases brought by Edward Levinson, and since the official occupying Mr. Rosen's position would presumably have cognizance of all the matters sworn to therein.

This is to advise that the two affidavits forwarded by the Department to be executed by Mr. Rosen and used in support of a motion for summary judgment to be made by the Government in the captioned case have been properly signed and are being returned to the Department today in accordance with its request. These affidavits are identical with previous ones signed in this case by Mr. DeLoach and have been retyped and redated in order to have them signed by a current official of the Bureau. The affidavits were read and approved by the Office of Legal Counsel prior to being executed.

These affidavits relate to civil suits filed against former and present Bureau personnel, as well as personnel of the Wisconsin Telephone Company, claiming damages rising out of the maintenance of microphone coverage on the plaintiffs in connection with our investigation of organized crime matters in Milwaukee, Wisconsin, during 1962-1965. Their purpose is to attest to the fact that the agents involved were acting in accordance with their duties and instructions in connection with this coverage.

RETIREMENT INFORMATION

Date: May 17, 1972.

APPLICATION

- ☒ The "Application for Retirement" will be forwarded by the Bureau to the Civil Service Commission (CSC) for approval.
☐ The enclosed "Application for Retirement" should be executed (or changed as indicated below) and promptly returned to the Bureau for forwarding to the Civil Service Commission (CSC) for approval. The information sheet attached to the application is for your records and you should detach it before sending in the application.

DEPOSIT OR REDEPOSIT

Making either a deposit or redeposit is optional. Such amounts are paid directly by you to CSC; therefore, it is possible that you have already made the deposit or redeposit indicated below without the Bureau's knowledge, having dealt directly with CSC. If so, you may ignore this matter now. If not, after a review of the approximate annuity figures shown below, should you decide to make a deposit or redeposit, you should request Bureau to forward Standard Form 2803 to you. Return this form to the Bureau.

- ☐ Not applicable.
☒ The deposit you may owe is a payment to the retirement fund to cover a period of service during which no retirement deductions were withheld from salary. Credit is given for service not covered by deductions; however, if the deposit is not paid, your annuity will be reduced each year by 10% of the amount due as deposit. The amount you may owe is approximately \$ 1062.
☐ The redeposit you may owe is a payment to the retirement fund to cover a period of service for which retirement deductions were withheld from your salary but later refunded to you following your separation from civilian employment. No credit is allowed in the computation of annuity for the period of service covered by the refund unless redeposit is made. The amount you may owe is approximately \$ _____.

ANNUITY

Annuities are computed on full months of service. The estimated annuity below is based on your ☒ Bureau service, including 0 year, 4 months, 13 days of accrued sick leave, ☐ other civilian Government service and/or ☐ military service known to us, totalling 39 years, 6 months, 12 days. CSC makes the official computations and determines whether prior service is creditable, advising you direct the exact amount of your annuity. The figures below are only estimates, and they do not take account of deduction for health insurance coverage. You should receive the first annuity check about 2 months after separating from the Bureau's rolls. Separation for disability retirement or for SA retirement cannot be made final until CSC has notified FBI of the approval of your application.

SEPARATION FROM ROLLS

Since you ☒ will cease active duty ☐ ceased active duty on 5-31-72 your annuity will commence 6-15-72 immediately following the ☐ cease active duty date or ☒ expiration of current accrued annual leave on 6-14-72 earned through 6-10-72. Item B2 on application ☐ changed to ☐ should be changed to close of business

_____ If ☐ annual leave or sick leave was or will be used by you subsequent to this may change the effective date of your retirement and shorten your total length of service. Bureau should be advised immediately of any such change.

- ☐ If retirement is for disability, separation takes effect after the approval of CSC is received by the Bureau or after the expiration of any accrued sick leave, whichever occurs later. Under Internal Revenue Service regulations, some sick pay and disability income is not taxable; thus, you may be able to exclude from Federal income tax liability all or a part of the payments you receive for sick leave used prior to the date your annuity commenced, as well as for annuity received as a disability annuitant. Any such exemption would terminate when you reach normal retirement age. Thereafter, this annuity would be Federal income tax-free until you had drawn as annuity an amount equal to the retirement deductions from your salary while you were working. CSC will advise you of this amount.
- ☒ If retirement is not for disability, the "sick pay" exclusion is not permissible. Once you have received in annuity as much as was deducted from your salary for retirement purposes, you are subject to Federal Income Tax on the rest. CSC will advise how much was deducted. Only if you were incapacitated and were granted extended sick and/or annual leave for sick leave exceeding thirty calendar days prior to separation for retirement might you qualify for a "sick pay" exclusion for the leave period.
- ☒ Questions you may have as an annuitant regarding your income tax liability or privileges can be answered by the Internal Revenue Service. Internal Revenue Publication, Comprehensive Tax Guide to U.S. Civil Service Retirement Benefits, may be of assistance to you. Note: You are required to file a Federal gift tax return, Form 709, if you elect a reduced annuity with benefit to surviving spouse. In the usual case it is unlikely any tax will be payable; however, a tax return must be filed.
- ☒ You should send CSC over your signature any change in address, setting out your CSA (retirement) number.
- ☒ Following your separation date, you will receive a lump-sum payment for your accumulated annual leave in the approximate amount of \$ 8950. A deduction for Federal income tax has been made from this estimate.

FEDERAL EMPLOYEES' GROUP LIFE INSURANCE .

- ☐ Records show you elected Optional Insurance of \$10,000 and have Regular Insurance of \$_____.
- ☒ Records show you declined Optional Insurance but are covered by Regular Insurance of \$_____ 38,000.
- ☐ Records show you waived both Regular and Optional Insurance.

You may continue your group life insurance coverage following retirement or convert it to an individual life insurance policy without being required to undergo a physical examination. Conversion to an individual life insurance policy necessitates paying the usual premium for a person of your age and class of risk. If you decide to convert, the Bureau should be immediately advised. Otherwise, SF-56, "Agency Certification of Insurance Status," will be forwarded to CSC and a copy sent to you. If you elect to continue Regular Insurance coverage, such protection will continue premium free until you reach age 65. At that time coverage will be reduced 75% (at 2% per month) by the time you reach age 68 years and 2 months. The remaining 25% is also premium free for the remainder of life. Optional Insurance of \$10,000, if continued after retirement, will be at full premium cost until you reach age 65. Thereafter, it is cost free for the remainder of life and commencing at age 65 it will be reduced 75% at the same rate as Regular Insurance. The premium cost of Optional Insurance varies as to age, beginning at \$2.82 monthly for persons under age 35 and ranging to \$41.17 monthly for persons age 60 or over. Optional Insurance may be continued after retirement if you continue to pay for it until age 65 provided you keep Regular Insurance. To retain the Optional Insurance requires no action, CSC will deduct the cost from your annuity. You must have had Optional Insurance for all of your service during which it was available (first offered in (1968) or for 12 years immediately before your retirement. Optional Insurance may be converted to an individual policy if you are not eligible to continue it or, if you do not wish Optional Insurance to be continued, you may waive coverage at any time by notifying CSC and still keep your Regular Insurance. Following retirement, double indemnity benefits concerning accidental death and dismemberment no longer exist for either Regular or Optional Insurance.

- ☐ You elected Optional Insurance on _____. If you desire to waive the insurance, you should submit SF-176. If you desire to convert the Optional Insurance, submit in duplicate a signed statement that you want to convert the Optional Insurance to an individual policy and wish to be informed how to do it.

Note: If the annuity of an insured retired employee is terminated under any applicable law or regulation, his regular and/or optional life insurance coverage stops on the date of such termination, with no conversion rights thereafter.

DESIGNATION OF BENEFICIARY, STANDARD FORM 54, FEDERAL EMPLOYEES' GROUP LIFE INSURANCE FILED:

- ☒ No. Beneficiary will be in order of precedence used by U.S. Government, i.e., (1) widow or widower, (2) children, (3) parents, etc.
- ☐ Yes; beneficiary designated as _____.

This designation is being forwarded to CSC and it will remain valid unless changed or canceled. Contact CSC for any change desired following retirement.

FEDERAL EMPLOYEES HEALTH BENEFITS PROGRAM

- ☒ Records show you elected not to enroll.
- ☒ Records show you enrolled in the following plan:
- ☐ Government-wide Service Benefit Plan (Blue Cross - Blue Shield)
 - ☐ Government-wide Indemnity Benefit Plan (Aetna Life Insurance Company)
 - ☐ Comprehensive Medical Plan
 - ☒ Special Agents Mutual Benefit Association (SAMBA) (See information below on SAMBA Life Insurance)

Unless you cancel your present health benefits enrollment, you will remain under your health benefits plan after retirement, and your enrollment will be transferred to CSC. The cost of your share of the plan will be deducted from your annuity by CSC.

Enrollment of an employee who dies while he is enrolled "for self and family" continues for his family if at least one family member is entitled to an annuity as the survivor. If the survivor annuitant is the only eligible family member, the retirement system will automatically change the enrollment to "self only."

The original of SF 2810, "Notice of Change in Health Benefits Enrollment," will be forwarded to you by the Bureau at a later date.

SAMBA LIFE INSURANCE - The life insurance you carry under SAMBA on yourself and dependents will continue in force until 1-10 or 7-10 coinciding with or next following the date of your retirement providing you pay the premium semi-annually. However, if premium for this coverage is withheld by payroll allotment, the life insurance ceases as of the date your separation for retirement becomes effective, with a 31-day grace period. If you desire to continue the protection beyond this time, you may do so without a physical examination on you, your spouse, and children under age 21. You may elect to continue to age 70 at group rates 50% of the life insurance on you, your spouse, and children as follows:

Your			Spouse and Children				Semi-Annual Cost

			8,000	3,500	4,000	1,750	16.00
			10,000	NONE	5,000	NONE	20.00

If you desire to convert 50% of your present life insurance, write within 31 days before your coverage terminates to SAMBA, Suite 750, 1325 G Street, Northwest, Washington, D. C. 20005. You may continue this coverage until January 10 or July 10 which coincides with or next follows your attainment of age 70. You will be billed on a semi-annually basis on January 10th and July 10th. At age 70, this coverage will terminate and you may then convert the amount of life insurance carried with SAMBA on you and your spouse to a regular policy with The Prudential Insurance Company of America.

At retirement the 50% of SAMBA Life Insurance that cannot be continued with SAMBA may be converted to a regular policy with Prudential on you and your spouse, but not on the children. The premium will be the same as if you and your spouse applied for an individual policy at that time. You may make the necessary conversion arrangement through the nearest Prudential Office.

SPECIAL ACCIDENT AND TRAVEL INSURANCE (SATI)

If you are a member of SATI upon retirement, you cannot continue the Long Term Disability (In-Hospital Income, Salary Continuation and Pension Supplement). You may continue the Accidental Death, Dismemberment and Permanent Total Disability and the Accident Indemnification at the same rates and amounts to age 65. You may also continue the coverage on your spouse to age 65 and your dependent children to age 18 (or 23 if full-time student.) Upon attainment of age 65 you may only continue the Accidental Death and Dismemberment but not the Permanent Total Disability portion to a maximum of \$25,000 on you and your spouse to age 75. The cost will be 19¢ per month per thousand. Upon the death of an insured employee, the insured spouse and dependent children may continue their insurance until age 65 or age 18. The Accident Indemnification cannot be continued after age 65. If you retire due to disability and belong to SATI, you should contact Wright and Company, Suite 1222, 1001 Connecticut Avenue, N. W., Washington, D. C. 20036.

Hoover Aide To Quit FBI

Associated Press A-10

The FBI yesterday announced the retirement of Alex Rosen, assistant to the director and 38-year veteran of the agency.

Rosen's resignation, announced by acting FBI director L. Patrick Gray III, becomes effective May 31.

Rosen cited personal reasons in a letter of retirement submitted May 9, saying he had lost a "true friend in the death of director J. Edgar Hoover."

Rosen, 66, entered the agency as a special agent in 1933 and has served as assistant director since February 1942 and assistant to the director since last October, Gray said.

A New York City native, Rosen was graduated from Ohio State University and Cleveland Law School.
